Subject: FW: Question from the VIN Coordinator re: Your 2010 VIN Decoding

(dba: Look Trailers)

12/11/12

Note to the Mfrs' Info Database from VIN Coordinator Jeanette Chow:

LGS Industries' PART 565—VIN Deciphering document dated 02/18/10 had incorrect codes in VIN Position 10 for Model Years. Based on their e-mail below, the company caught this error and avoided creating erroneous VIN numbers.

Matt and Jeanette,

That was evidentially just a typo on the original. We have always used the following:

A – 2010

B – 2011

C – 2012

D – 2013, etc.

Thanks,

Tammy Bainter
