RE: Requirements of part 566 FMUSS.

Dear Sirs:

The purpose of this letter is to inform the N.H.S.T.A. that "Care Concepts, Inc." has begun to alter previously certified vehicles in order to make them accessible to handicapped and elderly who are confined to wheelchairs.

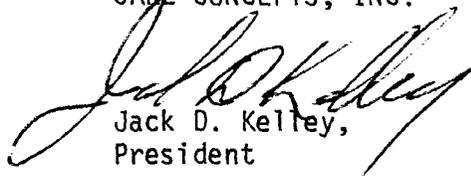

We are classifying ourselves as "Vehicle Alterers".

The vehicles we are altering are the Chrysler "Mini-Van" line of products with a GVWR of under 10,000 pounds.

We trust this letter fills the requirements of part 566 in notifying the N.H.T.S.A. of our intentions.

Sincerely,

CARE CONCEPTS, INC.

Jack D. Kelley,
President
