NHISA BOOKET

Patty, I have added to items 4,5,6&7, to include the codes for our Roofing Conveyors. The additions are underlined, all other values remain the same.

BACKGROUND

4/26/13

NOTE TO FILE

We located **Garlock Equipment Co.**'s original Part 565—VIN Decoding documents dated 11/9/90 and are entering them in the NHTSA Manufacturers' Information Database (MID), a Web database that the agency created a few years after the year 2000.

The document on the next page is **Garlock Equipment Co.**'s original Part 565—VIN Decoding submission dated 11/9/90 with Docket # 01-022-N11B—Comment # 4102. However, shortly afterwards, the company revised this document as seen in the Part 565—VIN Decoding document of the previous page with Docket # 01-022-N11B—Comment # 4092.

JEANETTE CHOW
NHTSA VIN COORDINATOR.
