

**Appendix D**

**Summary Table of Impairment Findings  
by Study (includes all 10 Drugs)**

**REFERENCED STUDY**

ALC? (Y=Yes, N=No) indicates if study also included alcohol as a treatment effect.

**2<sup>nd</sup> GENERATION DRUGS**

## **APPENDIX D**

### **Summary Table of Impairment Findings by Study**

Continued...

Notes: Results for review were limited to n=134 references (REF# shown above) which actually reflect 138 separate studies since some references reported more than one study. Also, of the indexed n=134 studies, four were excluded: #10,#52,#72,#118.

Studies limited to findings for residual effects only are noted above with an "x" prefix, eg. "x-NO".

#### **1<sup>st</sup> GENERATION DRUGS:**

D1=chlorpheniramine, D2=clemastine, D3=diphenhydramine, D4=hydroxyzine, D5=tripolidine.

#### **2<sup>nd</sup> GENERATION DRUGS:**

N1=astemizole, N2=cetirizine, N3=fexofenadine, N4=loratadine, N5=terfenadine.
