

Research In Progress

Project Title: Cumulative Fuel System Life Cycle and Durability Testing

Project Manager: Barbara Hennessey

Description: Generate simulated lifetime performance data to assess fuel system vulnerability to environmental conditions

Project Initiation Date: Sep-08

Close Date: Suspended – Lack of funds

Contract Number: DTNH22-08-D-00080 Task 4

Project Awarded To: Battelle Memorial Institute

Total Contract Cost: \$25,000.00 (08)

Date Added: 4/29/2008
