

AIR BAG RECALLS—KNOW THE FACTS

- Approximately 70 million Takata air bags are or will be under recall by 2019. This is the largest and most complex auto safety recall in U.S. history.
- A combination of time, environmental moisture and fluctuating high temperatures contribute to the degradation of the ammonium nitrate propellants in the air bags. Such degradation can cause the propellant to burn too quickly, causing the air bag to explode, and sending shrapnel through the air bag and into the vehicle's passengers.
- Certain model year Hondas and Acuras and certain 2006 Ford and Mazda "Do Not Drive" vehicles are at substantially higher risk of having faulty Takata air bags and need to get replacement air bags IMMEDIATELY.
- There have been 15 confirmed deaths in the United States due to faulty Takata air bags.

ACT IMMEDIATELY—DON'T DELAY

- NHTSA urges all consumers to check their vehicle identification numbers (VINs) for open recalls by using our free [VIN Look-Up Tool](#).
- If you have an open recall on your vehicle, get it fixed for FREE immediately at your nearest dealership.
- All [vehicles with higher-risk air bags](#) are listed on [NHTSA.gov](#).
- Even if your vehicle is not currently under a recall, it could be affected in the future. Sign up for [e-mail alerts to be notified of future recalls](#).
- For information about air bag recalls, recalls in general, and to find answers to common questions, go to [NHTSA.gov/recalls](#).

GENERAL FAQ

WHAT IS A RECALL?

A recall happens when a manufacturer or NHTSA determines that a vehicle, piece of equipment, car seat, or tire poses an unreasonable safety risk.

WHAT SHOULD I DO IF MY CAR IS RECALLED?

Your dealer will fix your vehicle or piece of equipment for **FREE**. Get it taken care of IMMEDIATELY.

HOW DO I FIND OUT IF THERE IS A RECALL ON MY CAR?

You can use NHTSA's free online look-up tool on [NHTSA.gov/recalls](#) by inputting your VIN. You will also be notified by your manufacturer by mail.

WHERE DO I FIND MY VIN?

Your 17-digit VIN is located on the lower left side of your windshield (driver's side). You can also find it on your door jamb, your vehicle registration card, or your insurance card.
