INTRODUCTION

This digest reports the status of State laws dealing with driving under the influence of drugs (DUI-D) for all 50 States, the District of Columbia, and Puerto Rico. It is designed to be an accessible yet comprehensive reference to current State laws for DUI-D offenses. In general, the laws are current as of September 5, 2016. However, laws related to marijuana possession and use are current as of December 31, 2016 to reflect changes to State laws made in November 2016 to that subject.

Each State entry includes: Type of DUI-D Law, Basis for a DUI-D Charge; Tests for Drug Concentration; Adjudication of Drugged Driving (DUI-D) Charges; Sanctions; Homicide by Vehicle; DUI-D Offenses and Commercial Motor Vehicles; Driving While License Suspended for DUI-D; Habitual Traffic Offender Law; Other State Laws Related to Drug Use; State Laws Related to Marijuana Use; and Intoxicant Exclusion Laws.

The investigation of drug impaired driving offenses routinely involves obtaining and testing bodily substances other than a person’s breath. Blood is most frequently sought, but urine and saliva are also tested in many States. Most States permit a law enforcement officer to obtain a blood sample from a DUI-D suspect pursuant to an implied consent statute (i.e., without obtaining a warrant), as long as the suspect does not revoke his/her consent. Some States do not permit a blood sample to be withdrawn unless a law enforcement officer obtains a warrant. A few States only permit blood draws in the DUI-D context in cases involving a serious injury or death.

DEFINITIONS

Commercial Motor Vehicle:

For impaired driving offense purposes, most States define a "commercial motor vehicle" (CMV) as one that (1) has a gross vehicle weight ≥ 26,001 pounds; (2) is designed to transport 16 or more people including the driver; or (3) transports hazardous materials.

Drugs and Controlled Substances:

These are terms frequently used to refer to substances which, if ingested, may cause a person to be in violation of a State’s illegal per se law, or to become impaired in violation of such State’s general DUI-D law prohibiting the driving/operation of a motor vehicle while under the influence or while impaired. Each State separately defines the drug(s) and/or controlled substance(s) that trigger such laws. Such definitions are noted for reference in this digest.

DUI-D, DWI, DUI, OWI, OUI, and Impaired Driving Offense:

These are general terms that refer to any criminal action related to driving or operating a motor vehicle while "illegal per se" or while either impaired by, under the influence of, or intoxicated by, drugs. For the purposes of this digest, DUI-D will be utilized as standard terminology.

Entity Establishing Testing Protocol:

Many State legislatures require a specific entity to establish protocols for the chemical testing of blood samples in the DUI-D context. Typically, if such protocols are not followed, the blood sample at issue is not admissible in a DUI-D trial. It should be noted that in some States, chemical testing protocols are required only if the blood sample was obtained pursuant to the implied consent statute, meaning such protocols would not apply if the sample were withdrawn pursuant to a search warrant. Other States have protocols which apply to the chemical testing of a blood sample regardless of whether it was obtained pursuant to implied consent or a search warrant.

Illegal Per Se Law:

This law makes it a criminal offense to operate a motor vehicle: (1) at or above a specified concentration of a designated substance in the blood, urine, or saliva; or (2) with any amount of a designated substance, usually a controlled (illegal) substance or its metabolite, in the body. (This second category is commonly referred to as a “zero tolerance” law).
Implied Consent Law:
This type of law provides that a person gives implied consent to submit to a test for drug content in his/her body if he/she is arrested or otherwise detained for a DUI-D offense. If the person refuses to submit to such a test, civil sanctions such as a fine or license suspension may be imposed. The results obtained from such a test are usually admissible into evidence at a DUI-D trial.

Vehicular Homicide:
This is the unlawful and unintentional death caused by a person violating laws related to motor vehicle operation.

Mandatory Sanctions:
A “mandatory sanction” means either a criminal sanction (e.g., jail, fine, or community service) or an administrative licensing action (e.g., license suspension or revocation) that must be imposed by either a court or an administrative agency. That is, statutory law specifically requires that such sanction be imposed.

Marijuana:
An increasing number of States have legalized or decriminalized marijuana, or cannabis. The prevalence of marijuana throughout the United States means that a high number of DUI-D offenses involve this substance. This digest tracks marijuana possession and use laws for all 50 States, and notes whether marijuana possession is “illegal,” “decriminalized,” “legal for medicinal use,” and/or “legal for recreational use.”

Preliminary Breath Test:
A “preliminary breath test” (PBT) refers to a breath test given by a law enforcement officer to a suspected impaired driver prior to an arrest for an impaired driving offense. The results of this test are used along with other evidence by the officer to determine if there is “probable cause” to arrest the driver for such an offense. Usually, the results of a PBT cannot be admitted into evidence. Some States impose a civil sanction upon a person who refuses to submit to a PBT, or permit such refusal to be entered as evidence at trial.

Pre-Sentence Investigation Law:
As used in this publication, this term means a law that provides that a person who has been convicted of an impaired driving offense undergo an evaluation to determine if he/she has either an alcohol or drug abuse problem prior to sentencing.

Presumption:
The term “presumption” under “Basis for a DUI-D Charge” refers to a specific drug concentration in a driver's blood, urine, or other bodily substance, at or above which it may be presumed that he/she was driving in violation of the "Standard DUI-D Offense."

Refusal:
When a person revokes his/her implied consent to submit to a chemical test of the person’s breath, blood, urine, and/or other bodily substance, this is generally referred to as a “refusal” offense. When a DUI-D suspect refuses to take a chemical test required under a State’s implied consent statute, a law enforcement officer must either obtain a warrant to withdraw the person’s blood, or rely on a non-consent exception to the warrant requirement. Missouri v. McNeely, 133 S.Ct. 1552 (2013). Many States impose sanctions when a DUI-D suspect refuses an implied consent chemical test. Historically, these have included penalties such as jail, a fine, driver's license suspension, or admitting such refusal as evidence during a DUI-D trial. It should be noted that while many States still technically have criminal penalties on the books for refusal to submit to an implied consent blood test, criminal penalties were abrogated by the Supreme Court on June 23, 2016. Birchfield v. North Dakota, 579 U.S. ____ (2016).

Vehicle and Motor Vehicle:
All States specify that a person must be driving a “vehicle” or “motor vehicle” in order to trigger the prohibition against driving under the influence. However, each State defines the term “vehicle” or “motor vehicle” differently. Such definitions are noted for reference within this digest.
Off-Highway Vehicles:
This digest does not report on State laws that prohibit the operation of non-highway vehicles (e.g., snowmobiles, all-terrain vehicles [ATVs], or other off-road vehicles [ORVs]) either while under the influence of drugs or at or above a specific drug concentration.

Sanctions (Criminal and Administrative):
Unless otherwise stated, the sanctions are the same for all drugged driving offenses (driving under the influence of drugs, illegal per se, etc.).

The sanctions listed in the digest for criminal offenses are those that would normally apply to adult offenders. However, it should be noted that for juvenile offenders, the law may limit a court's ability to assign such punishment. Such offenders also may be subject to other sanctions for a violation of criminal laws that may not be listed in this digest.

This digest does report the sanctions (criminal or administrative) related to State laws that have special provisions that make it illegal for a young person (e.g., a person under 21) to operate a motor vehicle either (1) at or above a specific drug concentration, which is below the level used to determine adult intoxication; or (2) with any measurable amount of drugs in his/her body.

However, the digest does not generally report the sanctions (criminal or administrative) associated with State laws related to juvenile offenders. Please note that the sanctions for fines listed in this digest do not include court costs.

Search Warrant:
Most States permit a law enforcement officer to obtain a sample of a DUI-D suspect’s bodily substance (generally blood) by relying upon a search warrant, rather than relying upon the State’s implied consent statute. Where a DUI-D suspect has revoked his/her implied consent by refusing to submit to a chemical test required under a State’s implied consent statute, a law enforcement officer must obtain a search warrant, or rely upon an established exception to the search warrant requirement. Missouri v. McNeely, 133 S.Ct. 1552 (2013).

Zero Tolerance:
This law makes it a criminal offense to operate a vehicle with any amount of a designated substance, usually a controlled or illegal substance or its metabolite, in the body.

Note: Some jurisdictions and legal documents spell the word “marijuana” as “marihuana.” These are not mistakes or typographical errors. The spelling dates to the Marihuana Tax Act of 1937, and remains in many documents, especially Federal documents such as the Controlled Substances Act (1970) still in force.
OVERVIEW OF KEY PROVISIONS OF STATE IMPAIRED DRIVING LAWS

State statutes or regulations concerned with drugged driving violations, i.e., DUI-D, typically include several major components: the basis for an offense; requirements for chemical tests for drug concentration; the adjudication of charges; sanctions; and other criminal actions related to DUI-D. Details of State statutes and/or regulations pertaining to each of these components are provided in the State-by-State analysis of this document.

THE BASIS FOR A DUI-D CHARGE

All States, the District of Columbia, and Puerto Rico have enacted laws making it illegal to operate a vehicle when the person is under the influence, intoxicated, or impaired by drugs or controlled substances, and/or making it illegal to operate a vehicle with any amount, or a designated amount, of a drug or controlled substance in one’s bloodstream or body. The basis for a DUI-D charge in each State sets forth the conditions under which a person may be convicted for driving under the influence of drugs. Definitions of “under the influence,” “intoxicated,” and “impaired,” vary from State to State, and are noted within this Digest. The types of substances that may trigger a DUI-D charge also vary widely and are cited herein.

Some States have statutes establishing a lower threshold level for DUI-D for certain groups of individuals. For example, in South Dakota it is illegal for people under age 21 to operate a motor vehicle after having consumed marijuana or any controlled drug or substance as long as physical evidence of the consumption remains present in the person's body.

SANCTIONS FOR FIRST and REPEAT OFFENDERS

First-time DUI-D offenders, upon conviction, are often subject to jail time, and/or fines, and can receive other sanctions such as community service, vehicle impoundment, drug education and treatment. Information on the minimum sanctions that may be imposed upon first-time DUI-D offenders, upon conviction, in each State, is provided in the Key Provisions of State Drugged Driving Laws Summary Tables included in this document.

OTHER CRIMINAL ACTIONS RELATED TO DUI-D

Most States also have laws defining other specific criminal actions related to DUI-D under certain circumstances or conditions. Actions such as vehicular homicide, driving while one’s license is suspended for DUI-D, and operating a commercial motor vehicle while under the influence are among those considered to be criminal actions related to DUI-D. Drivers found to be in violation of laws pertaining to other criminal actions related to DUI-D are often subject to enhanced sanctions, including, but not limited to: license revocation, jail time, and vehicle forfeiture. Details regarding the specific actions considered to be criminal related to DUI-D and the sanctions associated with these actions are provided in the State-by-State analysis of this document.

<sup>23</sup> Key provisions of State statutes and regulations concerned with driving under the influence of drugs (DUI-D). Provisions of local laws are NOT reported.<br><sup>24</sup> This term indicates a circumstance in which a DUI suspect who is subject to the State’s implied consent statute has refused to provide a sample of his breath, blood, urine, or other bodily substance, as required by the State’s implied consent statute.<br><sup>25</sup> Except in accident cases involving death or a serious physical injury<br><sup>26</sup> Alabama’s Implied Consent statute does not apply to blood testing in a DUI-D case. Therefore, a search warrant would be not only permitted, but required to obtain a blood sample.<br><sup>27</sup> It appears that if a person has been lawfully arrested for driving while under the influence of an inhalant or controlled substance, the person is considered to have given consent to a breath test in order to determine the alcohol content of the person’s breath. However, the statute does not authorize chemical testing of blood or urine to determine the presence of controlled substances, unless the person has been involved in an accident that causes death or physical injury to another person, or the person is unconscious. AS §§28.35.031(a), 28.35.035(a),(b).<br><sup>28</sup> Alaska’s Implied Consent statute does not apply to blood testing in a DUI-D case. Therefore, a search warrant would be not only permitted, but required to obtain a blood sample.

29 Arrest not required for taking a blood sample if the driver is taken to a medical facility for treatment as a result of an accident. F.S.A. §316/1932(1)(c).

30 A blood test may only be taken under the implied consent law if: 1) the law enforcement has “reasonable cause” to believe that the person was DUI-D; 2) the driver appears for treatment at a medical facility; and 3) the administration of a breath/urine test is impractical or impossible. F.S.A. §316.1932(1)(c).

31 There is an exception for administrative hearings related to test refusals (license suspension). HRS § 291E-65; see Freitas v. Admin. Director of Courts, 116 P.3d 673 (Hawaii, 2005).

<sup>32</sup> A person may only be required to submit to a chemical test pursuant to a search warrant issued in an investigation of involuntary manslaughter (I.C.A. §707.5) or homicide/serious injury by vehicle (I.C.A. §707.6A) where a traffic accident has resulted in a death or in a personal injury likely to cause death and there is evidence of a DUI offense. I.C.A. §§ 321J.9(1); 321J.10.

<sup>33</sup> (1) At the time of the request, the officer has reasonable grounds to believe the person was operating or attempting to operate a vehicle while DUI-D, operating a CMV with drugs in the person’s system, or < 21 and operating or attempting to operate a vehicle with drugs in the person’s system; and (a) the person has been arrested or (b) was in an accident; or (2) the person was operating or attempting to operate a vehicle and such vehicle was involved in an accident resulting in serious injury or death of any person and the operator could be cited for a traffic offense. K.S.A. §8-1001(b).

<sup>34</sup> The law only allows a court to issue a search warrant requiring that either a blood or a urine sample be obtained for chemical testing in a DUI-D case involving either a death or physical injury. KRS §189A.105(2)(b). See also Combs v. Commonwealth, 965 S.W.2d 161 (Ky. 1998).

<sup>35</sup> It appears that in Maryland, a person cannot be compelled to submit to a chemical test unless the person was involved in a motor vehicle accident that resulted in the death of, or a life threatening injury to, another person. MD Code, Courts & Judicial Proceedings §10-309(a)(1).

36 Prohibited by statute in both criminal and civil cases except that the registrar may use evidence in an administrative proceeding to suspend the driving license. M.G.L.A. 90 §24(1)(e).
37 The Implied Consent statute in Massachusetts does not apply to blood testing in DUI-D cases. Therefore, a search warrant would be not only permitted, but required to obtain a blood sample.
38 The Minnesota Implied Consent statute also requires that (1) the person has been lawfully placed under arrest for DUI; (2) the person has been involved in a motor vehicle accident resulting in property damage, personal injury, or death; (3) the person has refused to take a PBT; or (4) the person submitted to a PBT and the result was BAC ≥ 0.08. M.S.A. §169A.51.
39 A search warrant is currently required to obtain a blood sample in a DUI-D cases in Minnesota.
40 Exceptions: Reasonable grounds for belief is sufficient for persons under age 21; (2) A person was involved in a motor vehicle collision which resulted in a fatality, a readily apparent serious physical injury, or serious physical injury. V.A.M.S. §577.020.1.
41 Mississippi’s Implied Consent statute does not apply to blood testing in a DUI-D case. Therefore, a search warrant would be not only permitted, but required to obtain a blood sample.

42 The code states that a chemical test shall be administered at the request of an officer having reasonable grounds to believe a person was operating a vehicle in violation of the DWI (OVI) statute. It also states that if an officer arrests a person for a violation, the officer shall request such person to submit to a chemical test. R.C. §4511.191(A)(3), (5). Based on this language, it appears that arrest is not required for an officer to request someone to submit to a test. However, if there is an arrest, then the officer is mandated to give such test.

In the DUI-D context, a bicycle or a ridden animal are also deemed to be a vehicle. Id.

Ala. Code §32-5A-191. See also Raper v. State, So. 2d 544 (Ala. Crim. App. 1991).
53 Involuntary intoxication is “…resulting from force, fraud, or artifice.” Miller v. State, 439 So. 2d 800, 802 (Ala. 1983) (citing commentary to Ala. Code §13A-3-2). By contrast, voluntary intoxication means “intoxication caused by substances that the actor knowingly introduced into his body, the tendency of which to cause intoxication he knows or ought to know, unless he introduces them under circumstances what would afford a defense to a charge of crime.” Id. In Alaska, technically a “chemical test” of blood, breath, and urine for alcohol or a controlled substance may be administered to a person without consent if that person has been arrested for a DUI-D offense where there has been an accident involving death or physical injury to another person. AS §28.35.035(a). See also AS §28.35.031(g) (blood and urine for controlled substances); and Municipality of Anchorage v. Ray, 854 P.2d 740 (Alaska App. 1993) (holding, among other things, that a blood sample drawn by a physician was not so great of an intrusion as to violate due process, and search and seizure provisions of Federal and Alaska Constitutions were not violated by statute allowing police to take blood alcohol sample from arrested motorist without consent). However, this legislative exception to the search warrant requirement should be relied upon cautiously in light of the United States Supreme Court’s decisions in Birchfield v. North Dakota, 579 U.S. __________ (2016) (holding that the search incident to arrest exception to the warrant requirement does not apply to warrantless DUI blood draws); and Missouri v. McNeely, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance). 64

91 It appears that a “motor vehicle” includes “every vehicle which is self-propelled and every vehicle which is propelled by electric power obtained from overhead trolley wires, but not operated on rails,” and includes all-terrain vehicles (ATVs). Fitch v. State, 853 S.W.2d 874, 875-76 (Ark. 1993) (citing A.C.A. §§27-21-101 through 109; and 27-14-207(b)).

92 The term “intoxicated” means influenced or affected by the ingestion of alcohol, a controlled substance, any intoxicant, or any combination thereof, to such a degree that the driver’s reactions, motor skills, and judgment are substantially altered and the driver, therefore, constitutes a clear and substantial danger of physical injury or death to himself/herself or another person. A.C.A. §5-65-102(4). The term “influence” means being controlled or affected by the ingestion of an alcoholic beverage or similar intoxicant or a combination thereof to a such a degree that a person's reactions, motor skills, and judgment are altered or diminished, even to the slightest scale, and the underage driver, due to inexperience and lack of skill, constitutes a danger of physical injury or death to himself/herself or another person. A.C.A. §5-65-102(3). The term “controlled substance” means a drug, substance, or immediate precursor in Schedules I-IV. A.C.A. §5-65-102(1).

93 It appears that despite the absence if a specific law relating to this type of test, a Portable Breath Test may be offered by law enforcement, and the results of such a test may be relied upon as part of an officer’s probable cause determination; but the result of such a test may not be admitted as substantive evidence at trial absent proof of reliability. See Elser v. State, 114 S.W.3d 168 (Ark. 2003); Daniels v. State, 139 S.W.3d 140 (Ark. App. 2003).

94 A law enforcement officer can request a driver to submit to a chemical test: (1) if the driver has been arrested for a DUI offense; (2) if the driver has been involved in an accident; or (3) if, at the time of a DUI arrest, there is “reasonable cause to believe” that the driver is intoxicated or has a BAC ≥ .08 (or driving under the influence or with a BAC ≥ .02 but < .08, for underage drivers). A.C.A. §§5-65-202(a); 5-65-309(a).

Individuals Authorized to Perform Chemical Testing (Blood):
The method of chemical testing to determine the presence and amount of alcohol in a person’s blood, urine, saliva, or breath must be performed according to a method approved by the Department of Health and State Board of Health. A.C.A. §5-65-204(b)(2). See also Ark. Admin. Code §007.25.3-A(3.13) (“Who May Analyze Samples”).
The method of chemical analysis of a person’s blood, urine, saliva, or other bodily substance made by the State Crime Laboratory for determining the presence of a controlled substance or intoxicant is exempt from approval by the department or the board. A.C.A. §5-65-204(b)(2).

Blood Drawn Pursuant to Search Warrant – Other: Independent Testing
State Has Limited Who May Perform: The person tested may have a physician or a qualified technician, registered nurse, or other qualified person of his/her choice administer an additional independent chemical test. A.C.A. §5-65-204(d).

Entity Establishing Testing Protocols:
Yes – Limited to Alcohol Analysis.
The method of chemical testing to determine the presence and amount of alcohol in a person’s blood, urine, saliva, or breath must be performed according to a method approved by the Department of Health and State Board of Health. A.C.A. §5-65-204(b)(2). See also Ark. Admin. Code §007.25.3-A(3.13) (“Who May Analyze Samples”).
The method of chemical analysis of a person’s blood, urine, saliva, or other bodily substance made by the State Crime Laboratory for determining the presence of a controlled substance or intoxicant is exempt from approval by the department or the board. A.C.A. §5-65-204(b)(2).

Adjudication of DUI-D Charges:
Mandatory Adjudication Law (Yes/No): Yes.95 A.C.A. §5-65-107.
Pre-Sentencing Investigation Law (PSI) (Yes/No): Yes. A.C.A. §5-65-109. The report must include (but is not limited to) the offender’s driving record, an alcohol problem assessment, and a victim impact statement (if applicable).

Affirmative Defenses to DUI-D Charge:
Legal Entitlement/Valid Prescription: No 96
Therapeutic Concentration: Yes 97
Involuntary Intoxication: Yes 98 A.C.A. §5-2-207(a).

95 Persons charged with a DUI-D offense must be tried on such charges or plead to such charges and no such charges shall be reduced. A.C.A. §5-65-107. For persons who are convicted of or who have pleaded guilty to or nolo contendere to a first DUI-D offense, the court is prohibited from placing such persons on probation and later discharging the accused without adjudication after the probation period has been served. A.C.A. §5-65-108(c). The same applies for persons under 21. A.C.A. §5-65-308.
96 See, e.g., Fiveash v. State, 458 S.W.ed 774 (Ark. App. 2015) (conviction for DUI-D relied upon evidence that Defendant had taken Adderall pill which had been prescribed to him).
97 It appears based upon the language of the statute that if a “therapeutic” concentration would not render a person “intoxicated,” arguing that the level of the substance detected was merely therapeutic would be a valid defense.

111 A “vehicle” includes all devices by which a person or property may be propelled or moved upon a highway, except a device moved exclusively by human power or used exclusively upon stationary racks or tracks. Cal. Vehicle Code §670.

112 To be “under the influence” means that the substance(s) must have so far affected the individual’s nervous system, brain, or muscles, so as to impair to an appreciable degree the person’s ability to operate a vehicle in a manner like that of an ordinarily prudent and cautious person in full possession of his faculties. People v. Canty, 90 P.3d 1168, 1174 (Cal. 2004).

113 A “‘drug’ means any substance or combination of substances, other than alcohol, which could so affect the nervous system, brain, or muscles of a person as to impair, to an appreciable degree, his ability to drive a vehicle in the manner that an ordinarily prudent man, in full possession of his faculties, using reasonable care, would drive a similar vehicle under like conditions.” Cal. Vehicle Code §312. See also People v. Olive, 92 Cal. App. 4th Supp. 21 (2001) (holding that Kava qualifies as a drug).

[^115]: The statute indicates that only persons with the specified qualifications “may withdraw blood for the purpose of determining the alcoholic content therein.” Cal. Vehicle Code §23158. There does not appear to be a parallel statute limiting those who may withdraw blood for the purpose of determining drug content. Authorized persons include: a licensed physician, surgeon, registered nurse, licensed vocational nurse, duly licensed clinical laboratory scientist or clinical laboratory bioanalyst, a person who has been issued a “certified phlebotomy technician” certificate, designated unlicensed laboratory personnel, or, at the request of a peace officer, a certified paramedic authorized by his employer. Non-Injury DUI-D Offense (with no previous DUI offenses) – Not less than 96 hours (at least 48 hours shall be continuous) or more than 6 months and not less than $390 or more than $1,000. Cal.Vehicle Code §23536(a).

118 Based on the language of the DUI-D statute, it appears to be a valid defense that the concentration of a drug would not have rendered the person “under the influence.” Cal. Vehicle Code §23152.

119 The listed criminal penalties for refusal to submit to an implied consent chemical test no longer apply to cases where a person has refused to submit to a blood test. Criminal penalties for refusal to submit to a blood test were abrogated by the Supreme Court on June 23, 2016, Birchfield v. North Dakota, 579 U.S. _____ (2016).

120 A previous offense includes Cal.Vehicle Code §§23152; 23153 (non-injury or injury DUI offenses). A guilty or nolo contendere plea to reckless driving (Cal.Vehicle Code §23103) instead of a DUI charge, is considered a previous DUI offense as well (Cal.Vehicle Code §23103.5(c)), as is a conviction for operating a vessel while under the influence. Cal. Harb. & Nav. Code §655.
Non-Injury DUI-D Offense (with one previous DUI offense within 10 years) – Not less than 90 days or more than 1 year and not less than $390 or more than $1,000. Cal.Vehicle Code §23540.

Non-Injury DUI-D Offense (with two previous DUI offenses within 10 years) – Not less than 120 days or more than 1 year and not less than $390 or more than $1,000. Cal.Vehicle Code §23546.

Non-Injury DUI-D Offense (with three previous DUI offenses within 10 years)\(^{121}\) – Not less than 180 days or more than 1 year and not less than $390 or more than $1,000. Cal.Vehicle Code §23550.

Injury-Related DUI-D Offense (with no previous DUI offenses) – Not less than 90 days or more than 1 year in county jail and not less than $390 or more than $1,000. Cal.Vehicle Code §23554.

Injury-Related DUI-D Offense\(^{122}\) (with one previous DUI offense within 10 years) – Not less than 120 days or more than 1 year in county jail and not less than $390 or more than $5,000. Cal.Vehicle Code §23560.

Injury Related DUI-D Offense\(^{123}\) (with two or more previous DUI offenses) – A term (in State prison) for 2, 3 or 4 years and not less than $1,015 or more than $5,000. Cal.Vehicle Code §23566.

DUI Offense with Great Bodily Injury where there have been 4 or more previous DUI offenses within 10 years, an additional consecutive sentence of 3 years in the State prison. Cal.Vehicle Code §23566(c).

Mandatory Minimum Term/Fine:

Injury-related DUI-D offense (with one previous DUI offense) – 10 days; or 96 hours (as 2 continuous periods of 48 hours) and $390. Cal.Vehicle Code §23542.

Injury-related DUI-D offense (with two previous DUI offenses) – 120 days and $390. Cal.Vehicle Code §23548.

Injury-related DUI-D offense (with two or more previous DUI offenses) – 1 year and $390. Cal.Vehicle Code §23568.

\(^{121}\) A fourth or subsequent non-injury DUI offense is a felony if the offender is sentenced to incarceration in the State prison. Cal.Penal Code §17; Cal.Vehicle Code §23550.

\(^{122}\) If more than one individual has been injured, an enhanced prison term of one year is added for each victim. The maximum number of such enhancements is three. Cal.Vehicle Code §23558.

\(^{123}\) Also includes DUI offenses where there has been great bodily injury and there were 2 or more previous DUI offenses (injury/non-injury) within 10 years. Cal.Vehicle Code §23566(b).
Child Endangerment: If any person is convicted of DUI-D and a minor < age 14 was in the vehicle at the time of the offense, the court shall impose the following penalties in addition to any other penalty:
First offense – an additional 48 continuous hours in jail (mand);
Second offense – an additional 10 days in jail (mand);
Third offense – an additional 30 days in jail (mand);
Fourth offense – an additional 90 days in jail (mand).
A person may also be charged with child endangerment under Cal.Penal Code §273a.124

Cal.Vehicle Code §§13352(a)(7); 23550.5; 23552; 23580; 23600.
Test Fee: The counties are authorized to impose on defendants a fee of not more $50 for conducting the analysis for drugs and/or alcohol. Cal.Penal Code §1463.14.
EMS Cost: A person may be held liable for the cost of an emergency response that resulted from the negligent operation of a motor vehicle while under the influence of either alcohol or drugs. Cal.Govt. Code §53150, et seq; Cal.Penal Code §1203.1(l). The law does not specifically require a DUI offense conviction as a condition of liability.

124 No punishment enhancement under Cal.Vehicle Code §23572 may be imposed if the person is also convicted of Cal.Penal Code §273a arising out of the same facts and incident.
Alcohol Program Assessments for DUI-D Offenders:
I. A person convicted of a DUI-D offense must pay an assessment, not to exceed $50, for the purpose of funding alcohol abuse education and prevention programs. Cal.Vehicle Code §23645(a).
II. A fee of not more than $100 may be assessed against a person convicted of a DUI-D offense in counties participating in an alcohol and drug assessment program, and an assessment not to exceed $100 may be imposed for PSI alcohol/drug evaluation. Cal.Vehicle Code §23649.

Special State Penalty (Fine): An additional State penalty of $10 is assessed against every defendant for every $10 of a fine (or fraction thereof) actually imposed and paid by a defendant. Cal.Penal Code §§1463(l)(2); 1464(a).

Special County Penalty (Fine): An additional county penalty of $7 is assessed against every defendant for every $10 of a fine (or fraction thereof) actually imposed and paid by a defendant. Cal.Gov. Code §76000; Cal.Penal Code §1463(l)(2). As a condition of probation the court may require the defendant to pay costs of probation investigation, incarceration, and provision of parole supervision. Cal.Penal Code §§1203.1b; 1203.1c; 1203.1e.

DUI Visitation Program (Persons Under 21): For a first DUI-D non-injury offense, a person, with his consent and as part of his probation, may be ordered by the court to visit trauma or hospital facilities to observe victims of accidents where alcohol125 was involved. In order to participate in this program, persons under 21 must agree not to drink alcoholic beverages until they are 21 and not use illegal drugs. Cal.Vehicle Code §23509, et seq.

Home Detention: DUI-D offenders are eligible for “home detention” as an alternative to imprisonment. This alternative includes “home detention” for certain minimum mandatory jail sentences. However, the mandatory sanctions for multiple DUI offenders under Cal.Vehicle Code §23580 (48 continuous hours or 10 days of community service) apply nevertheless. Cal.Penal Code §1203.016.

Persons < 18: A person under 18 who violates the regular DUI-D laws must also participate in either a drug education or rehabilitation program. Also, if such person fails to complete such programs, the license may be either suspended or revoked until either the person shows proof of completion or reaches 21. Cal.Vehicle Code §23520.

In lieu of the more traditional alcohol and drug education and treatment programs, an offender, again as a condition of probation, may be allowed to participate in a special “live-in alternative.” This alternative focuses on substance abuse users and requires them to live full time at a special facility. Cal.Penal Code §8001.

The court may require a “driving under the influence” program for 18 or 30 months. Cal.Vehicle Code §23552.

A person convicted of a first DUI-D offense in a juvenile court must participate in and complete either an alcohol or drug education program. Cal.Vehicle Code §23538; 23556; Cal. Health & Safety Code §11837(a) (c),(d).

Vehicle Impoundment/Confiscation:

Yes

\textbf{Impoundment Upon Conviction:}\textsuperscript{127} A vehicle owned and driven by the offender may be impounded as follows for a DUI-D offense (non-injury/injury):

\textbf{First offense} – The court \textit{may} order impoundment for not less than 1 day or more than 30 days;

\textbf{Second offense} (within 5 years) – The court \textit{shall} order impoundment for not less than 1 day or more than 30 days;

\textbf{Third or subsequent offense} (within 5 years) – Not less than 1 day or more than 90 days. Cal.Vehicle Code §23594.

\textbf{Impoundment at Sentencing:} The vehicle owned and driven by the offender may be impounded as follows for a DUI-D or other offense, as listed in the statute:

\textbf{First offense} – Not more than 6 months;

\textbf{Forfeiture:} A defendant’s vehicle may be subject to forfeiture if convicted of a DUI-D vehicle homicide offense, a non-injury-related DUI-D offense and two or more (or combinations of) convictions within 7 years for a vehicle homicide offense or a non-injury/injury-related DUI-D offense, or a DUI-D serious injury offense and one or more (or combinations of) convictions within 7 years for a vehicle homicide offense or a non-injury/injury DUI-D offense. Cal.Vehicle Code §23596.

\textsuperscript{126} First offenders who have been placed on probation and at the time of the offense had a BAC ≥ .20 or refused to submit to a chemical test \textbf{must} be placed in an education/counseling program for at least 6 months. Cal.Health & Safety Code §11837(c)(2). The same holds true for those who plead guilty or nolo contendere to a reckless driving charge in lieu of DUI. Cal.Vehicle Code §23103.5.

\textsuperscript{127} Under this impoundment/forfeiture law, no vehicle may be impounded or forfeited if another person has a community property interest in the vehicle and if it is the sole vehicle available to the defendant's immediate family. Cal.Vehicle Code §§23594; 23596. Additionally, it appears that Cal.Vehicle Code §23594 concerns DUI offenses only. Whereas, Cal.Vehicle Code §23592 lists DUI offenses along with other types of offenses that would trigger impoundment.

Other Miscellaneous Sanctions:

**Sanctions for Controlled Substance Convictions:**
If the use of a motor vehicle was used in or incidental to a controlled substance offense, driving privileges may be suspended for **up to three years**. Cal. Vehicle Code §13202.

Conviction of a person between 13 and 20 years old for a controlled substance offense requires a **one-year** license suspension. Cal. Vehicle Code §13202.5.

For the purpose of imposing enhanced sanctions, the court shall consider whether the offender’s blood alcohol level was $\geq 0.15$, or the person refused to submit to a test under the implied consent law. Cal. Vehicle Code §23578.

**Homicide by Vehicle:**
**State Has Such a Law:** Yes. Vehicular Manslaughter.\(^{128}\) Cal.Penal Code §§191.5; 192(c); 193.

*Note: An offender could also be charged with murder upon facts exhibiting wantonness and a conscious disregard for life of any person.\(^{133}\)*

---

\(^{128}\) **Implied Malice.** Under certain circumstances, in situations where a person has been killed by an intoxicated driver, evidence of voluntary intoxication can be introduced as evidence of implied malice in a second degree murder case against the driver. An offender could be charged with murder upon facts exhibiting wantonness and a conscious disregard for life to support a finding of implied malice. Additionally, courts have recognized that an offender’s previous encounters with the consequences of recklessness on the highway – whether provoked by the use of alcohol or of another intoxicant, among other things, sensitizes such offender to the dangerousness of such life-threatening conduct. Cal.Penal Code §§29.4; 188; 191.5 (e); *People v. Watson*, 637 P.2d 279 (Cal. 1981), superseded by statute on another point as stated in *People v. Bradford*, 22 Cal.App.4th 433, 439 (1994). *See also People v. Ortiz*, 109 Cal.App.4th 104, 112 (Cal.App.1Dist. 2003).

\(^{129}\) If more than one individual has been killed, an enhanced prison term of one year is added for each victim. The maximum number of such enhancements is three. Cal.Vehicle Code §23558.

\(^{130}\) This is the unlawful killing of a human being without malice aforethought, in the driving of a vehicle, where the driver was intoxicated and the killing was either a proximate result of the commission of an unlawful, but non-felonious act and with gross negligence, or the proximate result of the commission of an unlawful act that might produce death, in an unlawful manner, and with gross negligence. Cal.Penal Code §191.5(a).

\(^{131}\) **Subsequent Offenses:** A defendant convicted of this offense is subject to imprisonment from 15 years to life, if that person had a prior vehicle manslaughter offense with gross negligence, a prior vehicle-intoxicated manslaughter offense without gross negligence, a prior injury-related drunk-driving offense or a drunk-driving offense that was punished as a second or subsequent offense. Cal.Penal Code §191.5(d).

\(^{132}\) This is the same as gross vehicular manslaughter except there is no gross negligence. Cal.Penal Code §191.5(b).

\(^{133}\) Gross vehicle manslaughter while intoxicated is not a lesser-included offense of murder. As a result, a person can be tried for both offenses. *People v. Sanchez*, 16 P.3d 118 (Cal. 2001).

- Preliminary Breath Test Law – Applies to Drugs (Yes/No): Yes.

- A law enforcement officer may only administer a preliminary breath test if he/she reasonably suspects the person was driving a motor vehicle or vehicle while under the influence of or while impaired by alcohol. C.R.S.A. §42-1-102(112).

140 Colorado refers to an offense for driving while ability impaired (C.R.S.A. §42-4-1301(1)(b)) as “DWAI.”

141 A “motor vehicle” means any self-propelled vehicle that is designed primarily for travel on the public highways and that is generally and commonly used to transport persons and property over the public highways or a low-speed electric vehicle, but does not include low-power scooters, wheelchairs, or vehicles moved solely by human power. C.R.S.A. §42-1-102(58).

142 A “vehicle” is a device that is capable of moving itself, or of being moved, from place to place upon wheels or endless tracks. It includes a bicycle, or electrical assisted bicycle, but does not include a wheelchair, off-highway vehicle, snowmobile, farm tractor, or implement of husbandry designed primarily or exclusively for use and used in agricultural operations or any device moved exclusively over stationary rails or tracks or designed to move primarily through the air. C.R.S.A. §42-1-102(112).

143 “Driving under the influence” means driving a motor vehicle or vehicle when a person has consumed alcohol or one or more drugs, or a combination of alcohol and one or more drugs, that affects the person to a degree that the person is substantially incapable, either mentally or physically, or both mentally and physically, to exercise clear judgment, sufficient physical control, or due care in the safe operation of a vehicle. C.R.S.A. §42-4-1301(1)(f).

144 Pursuant to C.R.S.A. §42-4-1301(d), the term “one or more drugs” includes: (A) any of the substances (i) recognized as drugs in the official United States pharmacopoeia, national formulary, or the official homeopathic pharmacopoeia of the United States, or a supplement thereof; (ii) intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in individuals or animals; (iii) other than food, intended to affect the structure of any function of the body of individuals or animals; or (iv) intended for use as a component of any of the afore-mentioned substances, C.R.S.A. §27-80-203(13)(a); but a “drug” does not include devices or their components, parts, or accessories. C.R.S.A. §27-80-203(13)(b). The term also encompasses (B) any controlled substance as defined in C.R.S.A. §18-18-102(5), and (C) any inhaled glue, aerosol, or other toxic vapor or vapors, as defined in C.R.S.A. §18-18-412. C.R.S.A. §42-4-1301(1)(d).

145 “Driving while ability impaired” means driving a motor vehicle or vehicle when a person has consumed alcohol or one or more drugs, or a combination of both alcohol and one or more drugs, that affects the person to the slightest degree so that the person is less able than the person ordinarily would have been, either mentally or physically, or both mentally and physically, to exercise clear judgment, sufficient physical control, or due care in the safe operation of a vehicle. C.R.S.A. §42-4-1301(1)(g).

146 Colorado calls this law an “express consent” law instead of an “implied consent” law. For example, any person who operates a motor vehicle in Colorado is “deemed to have expressed such person's consent” to submit to chemical test of either his/her blood, breath, urine, or saliva.

147 In Colorado, technically the Statutes provide that a law enforcement officer may physically restrain any person who refuses when he has probable cause to believe that the person committed criminally negligent homicide, vehicular homicide, 3rd degree assault or vehicular assault. C.R.S.A. §42-4-1301.1(3). The Statutes further provide that person's blood may be taken by force if there exists probable cause that the person committed an alcohol-related driving offense, or there is a clear indication that the blood sample will provide evidence of the level of intoxication. Evidence acquired through an involuntary blood test pursuant to §42-4-1301.1(3) shall be admissible in any prosecution for DUI, DWAI, or UDD. C.R.S.A. §42-4-1301(6)(e). Exigent must circumstances exist, and the test must be reasonable and conducted in a reasonable manner. People v. Shepherd, 906 P. 2d 607 (Colo. 1995). Colorado courts previously held that the natural metabolization of an intoxicant in the bloodstream posed a per se exigent circumstance. People v. Barry, 349 P.3d 1139, 1148 ¶ 24 (2015 COA) (citing People v. Schaff, 59 P.3d 848, 851 (Colo. 2002)). In light of Missouri v. McNeely, 133 S.Ct. 1552 (2013), Colorado courts now recognize that exigency in a DUI context "must be determined case by case based on the totality of the circumstances." Id.

These legislative exceptions to the search warrant requirement should be relied upon with caution in light of the United States Supreme Court’s decisions in Missouri v. McNeely, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance) and Birchfield v. North Dakota, 579 U.S. _____ (2016).

148 The court cannot accept a guilty plea to a non-alcohol or non-drug-related traffic offense in lieu of a DUI/DWAI offense unless the prosecutor makes a good faith representation that they could not establish a prima facie case on the original charge. C.R.S.A. §42-4-1301(4).

149 It appears based upon the language of the statute that if a “therapeutic” concentration would not render a person “under the influence” or “impaired,” that arguing that the level of the substance detected was merely therapeutic would be a valid defense.

150 But where there has been a conviction for a driving while impaired offense.
Third or subsequent – Not less than 60 days or more than 1 year and not less than $600 or more than $1,500. C.R.S.A. §42-4-1307(4), (5), (6).

\(^{188}\) In the District of Columbia, operating a vehicle while under the influence in violation of D.C. Code §50-2206.11, is referred to as “DUI;” Operating a vehicle while ability impaired in violation of D.C. Code §50-2206.14, is referred to as “OWI.” See, e.g., Anand v. District of Columbia, 901 A.2d 951, 955 (D.C. 2002).

\(^{189}\) A “vehicle” includes any appliance moved over a highway on wheels or traction tread, including street cars, draft animals, and beasts of burden. D.C. Code §50-2206.01(21).

\(^{190}\) A person is “under the influence” of a drug if he or she is to the slightest degree less able, either mentally or physically or both to exercise the clear judgment and steady hand necessary to handle as powerful and dangerous a mechanism as an automobile with safety to himself and the public. Thomas v. District of Columbia, 942 A.2d 645, 649 (D.C. 2008).

\(^{191}\) A “drug” includes any chemical substance that affects the processes of the mind or body, including but not limited to a controlled substance as defined in D.C. Code §48-901.02(4), and any prescription or non-prescription medication. D.C. Code §50-2206.01(6).

\(^{192}\) “Impaired” means a person’s ability to operate or be in physical control of a vehicle is affected, due to consumption of alcohol or a drug or a combination thereof, in a way that can be perceived or noticed. D.C. Code §50-2206.01(8).

\(^{193}\) The implied consent statute only applies when a law enforcement officer has reasonable grounds to believe that a person was operating or in physical control of a motor vehicle within the District while “intoxicated” by alcohol, or while the person’s ability to operate a vehicle is impaired by the consumption of a drug. It does not appear to apply when a law enforcement officer only has reasonable grounds to believe a person is “under the influence” of a drug. D.C. Code §50-1904.02(a).
Other Information:

A person shall submit two specimens for chemical testing of blood, breath or urine. D.C. Code §50-1904.02.

**Rebuttable Presumption**

If a person refuses to submit to a chemical test, and the person has had a prior DUI or OWI conviction, there is a rebuttable presumption that the person is under the influence of alcohol or a drug, or any combination thereof. D.C. Code §50-1905(b).

**Independent Testing**

A person may also submit specimens for chemical testing administered by a medical professional of his/her own choosing. The failure or inability of the person to obtain additional specimens or chemical tests does not preclude the admission of chemical test results that were the product of the law enforcement officer’s request. D.C. Code §50-1905(c).

**Non-Breath Chemical Tests for Drug Concentration Authorized Under the Implied Consent Law:**

- Other: A person may object to blood collection on valid religious or medical grounds. In such case, the person shall only be required to submit breath or urine specimens. D.C. Code §50-1904.02(b).

**Individuals Authorized to Perform Chemical Testing (Blood):**

- Blood Drawn Pursuant to Implied Consent – State Has Limited Who May Perform: Yes. A medical professional acting at the request of a law enforcement officer. D.C. Code §§50-1903(a); 1904.02(b).

- Blood Drawn Pursuant to Search Warrant – State Has Limited Who May Perform: No

**Adjudication of DUI-D Charges:**

- Mandatory Adjudication Law (Yes/No): No
- Anti-Plea-Bargaining Statute (Yes/No): No
Affirmative Defenses to DUI-D Charge:

Legal Entitlement/Valid Prescription: No

Therapeutic Concentration: Yes

Involuntary Intoxication: Note

---

194 The definition of “drug” as used in the DUI and OWI statutes includes prescription medications. D.C. Code §§50-2206.01(6); 50-2206.11; 50-2206.14.

195 It appears based upon the language of the statute that if a “therapeutic” concentration would not render a person “under the influence,” or “impair” the person’s ability to operate a vehicle, arguing that the level of the substance detected was merely therapeutic would be a valid defense. D.C. Code §§50-2206.11; 50-2206.14.

196 It does not appear that any District of Columbia statutes or appellate cases have addressed this defense.

197 However, if a person under arrest refuses and such person has had a prior conviction for DUI or OWI, there shall be a rebuttable presumption that such person is under the influence of alcohol, a drug or any combination thereof. D.C. Code §50-1905(b).

200 An additional 30-day mandatory minimum term of incarceration shall be imposed for each additional violation if the person has 3 prior offenses and is being sentenced on the current offense. D.C. Code §50-2206.13.

Yes - Persons under 21. F.S.A. §322.2616(17).

No

Yes. F.S.A. §§316.1932(1).
Yes. However, an arrest is not required for taking a blood sample if the driver is taken to a medical facility for treatment as a result of an accident. F.S.A. §316.1932(1)(c).
An arrest is also not required in cases where an officer has probable cause to believe that a person was driving or in actual physical control of a motor vehicle and caused the death or serious bodily injury of a human being. F.S.A. §316.1933(1)(a).

Yes. F.S.A. §316.1932(1)(a)(1.b), (c).

204 A “vehicle” includes every device in, upon, or by which any person or property is or may be transported or drawn upon a highway, except devices used exclusively upon stationary rails or tracks. F.S.A. §316.003(95).
205 “Normal faculties” include, but are not limited to: the ability to see, hear, walk, talk, judge distances, drive an automobile, make judgments, act in emergencies, and, in general, normally perform the many mental and physical acts of daily life. F.S.A. §316.1934(1).
206 A breath test under the implied consent statute appears to apply only to the detection of alcohol—such test may not be used under the implied consent statute to detect the presence of drugs/controlled substances. F.S.A. §316.1932(1)(a).
207 A refusal to submit to field sobriety testing is admissible into evidence at a DUI trial. State v. Taylor, 648 So.2d 701 (Fla. 1995).
Non-Breath Chemical Tests for Drug Concentration Authorized Under the Implied Consent Law:

Blood: Yes. A blood test, for the purposes of implied consent, may be taken only if: 1) the law enforcement has “reasonable cause” to believe that the person was DUI-D; 2) the driver appears for treatment at a medical facility; and 3) the administration of a breath/urine test is impractical or impossible. F.S.A. §316.1932(1)(c).

Urine: Yes. F.S.A. §316.1932(1)(a)(1.b)

Other: Independent Testing
If the arresting officer does not request a chemical test, the person may request the arresting officer to have a chemical test done. F.S.A. §316.1932(d).

The person tested may, at his/her own expense, have an additional independent test administered. The failure or inability to obtain an independent test by a person does not preclude the admissibility in evidence of the test taken at the direction of the law enforcement officer. F.S.A. §316.1932(f)(3).

Admission of Evidence During Possession Trial
The results of a test administered pursuant to the implied consent statute to detect the presence of controlled substances is not admissible in evidence in a criminal prosecution for the possession of a controlled substance. F.S.A. §316.1932(f)(2).

Blood Sample Withdrawn for Medical Purposes
Test results from blood withdrawn for medical purposes, independent of the implied consent statute, are admissible in a criminal trial. Robertson v. State, 604 So. 2d 783 (Fla. 1992)

Individuals Authorized to Perform Chemical Testing (Blood):
Blood Drawn Pursuant to Implied Consent – State Has Limited Who May Perform:

Yes. A physician, certified paramedic, registered nurse, licensed practical nurse, other personnel authorized by a hospital to draw blood, duly licensed clinical laboratory

Note.208

In Florida, a driver may be compelled to provide a blood sample for testing if he/she has been: (1) involved in an accident resulting in either death or serious bodily injury of a human being 208(F.S.A. §316.1933(1)) and there is reasonable cause to believe a DUI occurred; (2) the driver is at a hospital for treatment and a breath or urine test is impractical; or (3) the person is unconscious or otherwise unable to refuse. F.S.A. §316.1932(1)(c). However, this legislative exception to the search warrant requirement should be relied upon cautiously in light of the United States Supreme Court’s decisions in Birchfield v. North Dakota, 579 U.S. _____ (2016) (holding that the search incident to arrest exception to the warrant requirement does not apply to warrantless DUI blood draws); and Missouri v. McNeely, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance).
director, supervisor, technologist, or technician, acting at the request of a law enforcement officer. F.S.A. §316.1932(f)(2)(a).

Blood Drawn Pursuant to Search Warrant – State Has Limited Who May Perform: No

Search Warrant Limitation - A search warrant for a sample of a DUI-D suspect’s blood is only authorized when probable cause exists to believe the subject has committed felony DUI-D, not misdemeanor DUI-D. See F.S.A. §933.02; and State v. Geiss, 70 So. 3d 642, 650 (Fla. 5th DCA 2011).

Adjudication of DUI-D Charges:
Mandatory Adjudication Law (Yes/No): Yes. Applies to DUI-D, manslaughter resulting from the operation of a motor vehicle and vehicle homicide offenses. F.S.A. §316.656.

Anti-Plea-Bargaining Statute (Yes/No): Yes. Applies to DUI-D with an alcohol concentration of 0.15 or more, DUI-D where there has been physical injury, death or property damage, DUI-D manslaughter related to the operation of a motor vehicle and vehicle homicide. F.S.A. §316.656(2).

Pre-Sentencing Investigation Law (PSI) (Yes/No): Discretionary in felony cases. F.S.A. §921.231. All convicted DUI offenders must undergo a “psychosocial evaluation.” F.S.A. §316.193(5).

Affirmative Defenses to DUI-D Charge:
Legal Entitlement/Valid Prescription: No
Therapeutic Concentration: Yes
Involuntary Intoxication: No- Unless it rises to level of legal insanity.

Sanctions for Refusal to Submit to a Chemical Test:
Refusal to Take a Preliminary Breath Test - Criminal Sanction (Fine/Jail): None
Preliminary Breath Test – Other:
Refusal to Take Implied Consent Chemical Test – Criminal Sanction (Fine/Jail): A subsequent refusal is punishable as a first degree misdemeanor, which carries a jail term of up to 1 year and/or

209 Additionally, the blood test shall be performed in a “reasonable” manner. F.S.A. §316.1932(c).
210 It appears based upon the language of the statutes that if a “therapeutic” concentration would not render a person “under the influence,” to such an extent so as to impair the person’s normal faculties, F.S.A. §316.193(1)(a), then arguing that the level of the substance detected was merely therapeutic would be a valid defense.
211 A successful intoxication defense results in acquittal only in specific intent crimes, not general intent crimes. Linehan v. State, 476 So.2d 1262 (Fla. 1985). However, a successful insanity defense results in acquittal on the theory that one cannot be held criminally responsible for acts that he or she did not know were wrong. Miller v. State, 805 So. 2d 885, 887 (Fla. App. 2d, 2001).
a fine of up to $1,000. F.S.A. §§316.1932(1)(c); 316.1939; 775.082; 775.083.

Implied Consent Chemical Test - Other: Under F.S.A. §322.291, an implied consent law violator is required to complete a driver-training course.

222 This statute authorizes a law enforcement officer to use reasonable force, if necessary, to require such person to submit to the administration of the blood test. F.S.A. §322.1933(1)(a). This legislative exception to the search warrant requirement should be relied upon cautiously in light of the United States Supreme Court’s decisions in Birchfield v. North Dakota, 579 U.S. ______ (2016) (holding that the search incident to arrest exception to the warrant requirement does not apply to warrantless DUI blood draws); and Missouri v. McNeely, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance).

224 A “vehicle” includes every device in, upon, or by which any person or property is or may be transported or drawn upon a highway, excepting devices used exclusively upon stationary rails or tracks. OGCA §40-1-1(75).

225 The question is whether a person’s ingestion of an intoxicant has affect the person to the extent that the person is a less safe driver than the person would have been had the person not been affected by the intoxicant; or, stated another way, whether the ingestion of an intoxicant has made the person unable to drive as safely as the person would have had he/she not ingested the intoxicant. State v. Kachwalla, 561 S.E.2d 403 (Ga. 2002).

227 Law enforcement officers are using preliminary breath testing devices without express legislative authorization. However, OGCA §40-6-392(f) provides for the use of a self-authenticating certificate with regard to the inspection of a breath-test instrument. Further, the Georgia Supreme Court has held that the implied consent statute did not apply to an initial alcohol screening test used to determine probable cause to arrest drunk drivers and, thus, a law enforcement officer is not required to advise a defendant of his right to an independent alcohol level test before requiring the defendant to undergo a preliminary screening test. Keenan v. State, 436 S.E.2d 475 (Ga. 1993).

228 It appears that an arrest is not required if there are “reasonable grounds” to believe that a person was under the influence and he/she was involved in an accident that resulted in either serious injury or death. OGCA §40-5-55(a). See also Cooper v. State, 587 S.E.2d 605 (Ga. 2003) (holding that probable cause is required).

229 If proper and objective warnings are not given, evidence of refusal (of a chemical test) may not be admissible. State v. Leviner, 443 S.E.2d 688 (Ga.App. 1994).

OGCA §40-6-392(a)(1)(A).
The Division of Forensic Sciences of the GA Bureau of Investigation is in charge of approving satisfactory techniques or methods to ascertain the qualifications and competence of individuals to conduct analyses and to issue permits, as well as with requirements for properly operating and maintaining any testing instruments, and to issue certificates certifying that such instruments have met the requirements. Blood Drawn Pursuant to Search Warrant – State Has Limited Who May Perform: No. OGCA §40-6-392 only apply to evidentiary tests conducted pursuant to the implied consent statute; these requirements do not apply in cases where a search warrant was used to obtain a blood sample. Massey v. State, 771 S.E.2d 122 (Ga. App. 2015).

Voluntary Consent and Search Warrant
A blood sample may be obtained by voluntary consent or by a search warrant. OGCA §40-5-67.1(d.1).

Independent Testing
The subject of an implied consent blood test may have a physician or qualified technician, chemist, registered nurse, or other qualified person of his own choosing administer one

231 The court cannot accept a nolo contendere plea in two situations: (1) For a violation of the illegal per se provision, where the offender’s BAC or BrAC was ≥ .15; or (2) for a violation of OGCA §40-6-391(k), where a person under 21 was operating a motor vehicle with a BAC or BrAC ≥ .02. OGCA §§40-6-391(k)(3); 40-6-391.1(a).

232 The statute indicates that if a person was legally entitled to use the drug, he/she may not be convicted for DUI-D unless it is proven that the person was “rendered incapable of driving safely” as a result. OGCA §40-6-391(b). This has been held to be legally equivalent to the “less safe to drive” standard. State v. Kachwalla, 561 S.E.2d 403 (Ga. 2002).

233 It appears based upon the language of the statute that if a “therapeutic” concentration would not render a person “under the influence,” arguing that the level of the substance detected was merely therapeutic would be a valid defense to an “under the influence” charge. OGCA §40-6-391(a)(2), (3), (4).

234 In Georgia, “[a] person shall not be found guilty of a crime when, at the time of the act, omission, or negligence constituting the crime, the person, because of involuntary intoxication, did not have sufficient mental capacity to distinguish between right and wrong in relation to such act.” OGCA §16-3-4(a). The defense of “involuntary intoxication” is a defense of temporary insanity. Additionally, if charged under OGCA §40-6-391(a)(3), the subject must be under the “intentional” influence of a glue, aerosol, or other toxic vapor.
Second offense (within 10 years) (misdemeanor) – Not less than 90 days or more than 12 months and not less than $600 or more than $1,000;

DUI-D where there is a serious injury (i.e., where a member of a person’s body has been deprived, rendered useless or disfigured) is a felony. The sanction for this offense is imprisonment of not less than 1 year or more than 15 years. OGCA §40-6-394.

School Bus
DUI-D while operating a school bus – Imprisonment for not less than 1 year or more than 5 years and/or a fine of not less than $1,000 or more than $5,000. OGCA §40-6-391.3.

Second offense (within 10 years) – 72 hours;
Third offense (within 10 years) – 15 days;
Fourth or subsequent offense (within 10 years) – 90 days.

The base fines are mandatory. However, if payment of the fine will impose an economic hardship, the judge may order the defendant to pay in installments, or may suspend up to one-half of the fine imposed if the defendant undergoes substance abuse treatment. OGCA §40-6-391(g).

Community Service:
First offense (misdemeanor) – Not less than 40 hours;
Second offense – Not less than 30 mandatory days;
Third offense – Not less than 30 mandatory days;
Fourth or subsequent offense – Not less than 60 days, which may be suspended if the defendant is sentenced to serve 3 years of actual imprisonment. OGCA §40-6-391(c).

Restitution:
Yes. (1) A defendant may have to pay restitution (or other relief to a victim) as a condition of probation. OGCA §17-14-1, et seq. (2) A victim may also receive payment from the State’s victims’ compensation fund. OGCA §17-15-1, et seq.

Probation: If jail is < 12 months, there is mandatory probation for any period of time not served in confinement. OGCA §40-6-391(c).

License Plates Surrendered: A Second or subsequent DUI offender (within five years) must have the license plates of all vehicles owned surrendered to the court. Specially numbered plates may be issued for such vehicles provided the offender has a limited or probationary license or some other member of the offender’s household has a valid license and there is a hardship requiring the use of a vehicle or vehicles. Such special plates shall not constitute probable cause to stop a motor vehicle. OGCA §40-2-136.

242 A “vehicle” means a device by which any person or property is or may be transported or drawn upon a highway, but excludes devices moved by human power or devices used exclusively upon stationary rails or tracks and mopeds. HRS §286-2.

243 A “drug” includes (1) substances recognized as drugs in the official U.S. Pharmacopoeia, official Homeopathic Pharmacopoeia of the United States, or official National Formulary, or any supplement to any of them; (2) substances intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in man or animals; (3) substances other than food intended to affect the structure or any function of the body of man or animals; and (4) substances intended for use as a component of these, but not any device or their components, parts, or accessories. HRS §329-1.

244 In addition to the elements of the offense listed in HRS §291E-61(a)(2), an “intentional, knowing, or reckless” mens rea must be included in a complaint for DUI-D. State v. Nesmith, 276 P.3d 617 (Hawai‘i, 2012).

245 The law does not specifically authorize the use of PBTs, but does allow for PBT test results to “determining probable cause for the arrest.” The PBT is not a substitute for usual chemical tests under the implied consent law. HRS §§291E-1; 291E-11(f).

246 Although it should be noted that the statute refers to the PBT as “a preliminary alcohol screening device.”

The subject of an implied consent test may choose to have an additional test or tests conducted. The failure or inability to obtain an additional test does not preclude the admission of the test administered at the direction of the law enforcement officer. HRS §291E-13.

Any results reflecting the presence of drugs or metabolic products obtained from a blood or urine specimen obtained pursuant to implied consent are not admissible in a proceeding brought under the Uniform Controlled Substances Act, HRS §329-1 et seq., or for an offense against public health or morals, HRS §712-1, et seq. Legal Entitlement/Valid Prescription: No

247 Technically in Hawaii a driver may be compelled to submit to a chemical test if involved in an crash resulting in either death or serious personal injury to another person and there is reason to believe that the driver was under the influence of alcohol or drugs. HRS §291E-21(c). However, these legislative exceptions to the search warrant requirement should be relied upon with caution in light of the United States Supreme Court’s decision in Missouri v. McNeely, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance).

248 The definition of “drug” encompasses those drugs that would be legally prescribed. HRS §329-1. It does not appear that any exception has been carved out under the DUI-D statute for legally prescribed drugs.
249 It appears based upon the language of the statutes that if a “therapeutic” concentration would not render a person “under the influence,” such that it would impair the person’s ability to operate the vehicle in a careful and prudent manner, HRS §291E-61(a)(2), then arguing that the level of the substance detected was merely therapeutic would be a valid defense. Additionally, the presence of a drug does not trigger a presumption unless it is present “in an amount sufficient to impair the person’s ability to operate a vehicle in a careful and prudent manner.” HRS §291E-3(a)(3).
250 The listed criminal penalties for refusal to submit to an implied consent chemical test no longer apply to cases where a person has refused to submit to a blood test. Criminal penalties for refusal to submit to a blood test were abrogated by the Supreme Court on June 23, 2016. Birchfield v. North Dakota, 579 U.S. (2016).
251 A person must be sentenced to one of these sanctions but may be sentenced to more than one. HRS §291E-61(b)(1)(C).

Individuals Authorized to Perform Chemical Testing (Blood):

Blood Drawn Pursuant to Implied Consent – State Has Limited Who May Perform: Yes. A physician authorized to practice medicine, a licensed physician assistant, a licensed advanced practice nurse, a registered nurse, a trained phlebotomist, or licensed paramedic, or other qualified person approved by the Department of State Police. 625 ILCS 5/11-501.2(a)(2).

Entity Establishing Testing Protocols: The chemical analysis must be performed according to standards promulgated by the Department of State Police. The Department of State Police is authorized to approve satisfactory techniques and methods that shall be used to conduct chemical tests. 625 ILCS 5/11-501.2(a)(2).

270 In Illinois, a blood sample could previously be taken without consent or by force for a DUI offense (injury or non-injury related) as long as police have probable cause of such offense. See 625 ILCS 5/11-501.2(c)(2) as interpreted by People v. Yant, 570 N.E.2d 3 (Ill.App. 2 Dist. 1991) and People v. Jones, 824 N.E.2d 239 (2005). However, such exception to the search warrant requirement should now be relied upon with caution in light of the United States Supreme Court’s decisions in Missouri v. McNeely, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance) and Birchfield v. North Dakota, 579 U.S. (2016). See also People v. Harrison, ___ N.E.3d ___, 2016 IL App. (5th) 150048 (Feb. 18, 2016) (recognizing that the constitutionality of 625 ILCS 5/11-501.2(c)(2) may be called into question in the wake of Missouri v. McNeely).
Laboratories that test for the presence of cannabis or other drugs must comply with ISO/IEC 17025:2005. 625 ILCS 5/11-501.2(e). See also 20 IL ADC 1286.170.

Blood Drawn Pursuant to Search Warrant – State Has Limited Who May Perform:

Yes.

Samples Collected in Illinois - A licensed physician, physician assistant, licensed advanced practice nurse, registered nurse, trained phlebotomist, or certified paramedic.

When a blood test of a person who has been taken to an adjoining State for medical treatment is requested by an Illinois police officer, the blood may be withdrawn only by a physician authorized to practice medicine in the adjoining State, physician assistant, licensed advanced practice nurse, registered nurse, trained phlebotomist acting under the direction of the physician, or certified paramedic. 20 IL ADC 1286.320(b).

The person tested may have an additional chemical test or tests administered. The failure or inability to obtain an additional test does not preclude the admission of evidence relating to the test(s) taken at the direction of a law enforcement officer. 625 ILCS 5/11-501.2(a)(3).

Affirmative Defenses to DUI-D Charge:

Per Se – No, with the exception of Cannabis. 271 625 ILCS 5/11-501(a)(6), (b).

272 It appears based upon the language of the statute that if a “therapeutic” concentration would not render a person “under the influence” to a degree that renders the person incapable of driving safely, 625 ILCS 5/11-501(a)(3), (4), (5), then arguing that the level of the substance detected was merely therapeutic would be a valid defense.

278 A “vehicle” means a device for transportation by land or air. IC §9-13-2-196(d). The term does not include an electric personal assistive mobility device. Id.

279 “Intoxicated” means under the influence of: (1) alcohol; (2) a controlled substance (defined in IC §35-48-1); (3) a drug other than alcohol or a controlled substance; (4) an inhalant (as listed in IC §35-56-6-2 or IC 35-46-6-3); (5) any combination of the aforementioned substances; (6) any other substance, not including food and food ingredients (defined in IC §6-2.5-1-20), tobacco (defined in IC §6-2.5-1-28) or a dietary supplement (defined in IC §6-2.5-1-6), so that there is an impaired condition of thought and action and the loss of normal control of a person’s faculties. IC §9-13-2-86.

280 Listed in schedule I or II of IC §35-48-2.

281 The implied consent law requires a driver to submit one or more “chemical tests.” The substances that may be tested are breath, blood, urine or any other bodily substance. IC §§9-30-6-1; 9-30-6-6(a).
Blood Drawn Pursuant to Implied Consent –
State Has Limited Who May Perform:

Yes.
I. Outside of a licensed hospital\(^{282}\): a physician or person trained in obtaining bodily substance samples and acting under the direction of or under a protocol prepared by a physician. IC §9-30-6-6(g).

II. At a licensed hospital: a physician holding an unlimited license to practice medicine or osteopathy, a registered nurse, a licensed practical nurse, an advanced emergency medical technician, a paramedic, any other person qualified through training, experience, or education to obtain a bodily substance sample. IC §9-30-6-6(j).

III. A law enforcement officer who is otherwise qualified to obtain a bodily substance sample as described above may obtain such sample if (1) before January 1, 2013, the officer obtained a bodily substance sample from an individual as part of the officer’s official duties as a law enforcement officer; and (2) the person consents to the officer obtaining a bodily substance sample, or obtaining the bodily substance sample is authorized by a search warrant. \(^{282}\) As defined in IC §§16-18-2-179(a) and 16-18-2-179(b).

\(^{283}\) Pursuant to the Code, a law enforcement officer may use reasonable force to assist an individual authorized (by law) to take a bodily substance sample from a person who does not consent and resists the taking of such sample. This applies in cases where there is serious bodily injury or death of another. IC §9-30-6-6(g), (h). However, such exception to the search warrant requirement should now be relied upon with caution in light of the United States Supreme Court’s decision in Missouri v. McNeely, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance).

First offense (Class C Misdemeanor) – Not more than 60 days and may be fined not more than $500;
Subsequent offense (within 5 years) (Level 6 Felony287) – A fixed term between 6 months and 2-1/2 years (advisory sentence = 1 year) and may be fined not more than $10,000.
IC §§9-30-5-1(a), (c); 9-30-5-3; 35-50-2-7; 35-50-3-4.

Serious Injury:

284 It appears based upon the language of the statute that if a “therapeutic” concentration would not render a person “intoxicated” pursuant to IC §9-30-5-2, then arguing that the level of the substance detected was merely therapeutic would be a valid defense.

285 Under a separate implied consent law, a driver involved in a fatal or serious bodily injury accident may be asked by a law enforcement officer to submit to a chemical test. A person does not have to submit to this test if offered but refusal is a Class C Infraction or Class A infraction (if one previous) with a possible fine of up to $500. The court may impose a license suspension for one year. IC §§9-27-5-4(b); 9-30-7-1, et seq.

286 The listed criminal penalties for refusal to submit to an implied consent chemical test no longer apply to cases where a person has refused to submit to a blood test. Criminal penalties for refusal to submit to a blood test were abrogated by the Supreme Court on June 23, 2016. Birchfield v. North Dakota, 579 U.S. (2016).

287 A person convicted of a Level 6 felony may, at the court’s discretion, be sentenced as if they had been convicted of a Class A misdemeanor (Jail: Not more than 1 year and possible fine of not more than $5,000) provided that this was the person’s first felony conviction, no bodily injury was caused and at least 3 years have passed since the person completed the sentence. IC §35-50-2-7.
First offense (Level 6 Felony) – A fixed term between 6 months and 2-1/2 years (advisory sentence = 1 year) and may be fined not more than $10,000;

Yes. The court may order a defendant to pay direct compensation to a victim. IC §35-50-5-3. There is also a victims’ compensation fund. IC §5-2-6.1-40.

Child Endangerment:

A person who commits a DUI-D offense with a passenger < 18 commits a Level 6 Felony. Punishment is a fixed term between 6 months and 2-1/2 years (advisory sentence = 1 year) and a possible fine not more than $10,000. IC §§9-30-5-1(b); 9-30-5-2; 35-50-2-7; 35-50-3-4.

Other:

Alcohol and Drug Countermeasures Fee: The clerk shall collect a fee of $200 for a conviction of a DUI-D offense. IC §33-37-5-10.

Emergency Medical Services Fund: The court may order a defendant to make “restitution” of not more than $1,000 to the emergency medical services fund for any needed services provided by emergency services personnel as a result of their actions. IC §9-30-5-17(b).

  - Yes. Limited to those designated to withdraw samples pursuant to implied consent. 500 KAR §8:030(2); and KSA §189A.103(6).

#### Search Warrants – Limitation

The law only allows a court to issue a search warrant requiring that either a blood or a urine sample be obtained for chemical testing in a DUI-D case involving either a death or physical injury. KRS §189A.105(2)(b). See also Combs v. Commonwealth, 965 S.W.2d 161 (Ky. 1998).

#### Right to Contact Attorney

During the period immediately preceding the administration of a chemical test, a person must be afforded an opportunity of at least ten minutes, but not more than fifteen minutes to attempt to contact and communicate with an attorney. The person must be informed of this right. However, inability to communicate with an attorney during this period does not relieve the person of his obligation to submit to the tests, and the penalties for refusal remain applicable. A person does not have a right to have an attorney present during the test itself, but an attorney may be present if the attorney can physically appear at the location where the test is to be administered within the requisite time period. KRS §189A.105(3).

#### Independent Testing

A person has a right to have an independent sample taken for testing. Unavailability of the person chosen to administer the test(s) will not render the evidence obtained via implied consent inadmissible. KRS §§189A.103(7); 189A.105(4).

#### Testing Procedures
Specific procedures have been established for chemical tests of blood for alcohol or other substances, which appear to apply to both implied consent and search warrant cases. 500 KAR §8:030(2).

**Adjudication of DUI-D Charges:**

- **Mandatory Adjudication Law (Yes/No):** No
- **Anti-Plea-Bargaining Statute (Yes/No):** Yes. Plea bargaining is not permitted if any one of the following conditions exists: (1) a defendant ≥ 21 has a BAC/BrAC ≥ .08; (2) a defendant < 21 has a BAC/BrAC ≥ .02; or (3) a defendant refused to submit to a chemical test under the implied consent law. However, this does not apply if the State’s witnesses are unavailable for trial or the chemical test results are in error. The court must record the reasons for any change in the original charges. KRS §189A.120.

- **Pre-Sentencing Investigation Law (PSI) (Yes/No):** Following a felony conviction, a court must order a presentence investigation. KRS §532.050.

**Affirmative Defenses to DUI-D Charge:**

- **Legal Entitlement/Valid Prescription:**
  - **Legal Entitlement** – No. KRS §189A.010(4)(a).
  - **Valid Prescription** – No. However, laboratory test(s) for a controlled substance are not admissible as evidence in a prosecution for a per se DUI-D offense upon a finding by the court that the defendant consumed the substance under a valid prescription from a practitioner acting in the course of his/her professional practice. KRS §189A.010(4)(b).

- **Therapeutic Concentration:** Under the Influence – Yes.³¹⁶
  - **Per Se** – No.

- **Involuntary Intoxication:** Note.³¹⁷

**Sanctions for Refusal to Submit to a Chemical Test:**

- **Refusal to Take a Preliminary Breath Test - Criminal Sanction (Fine/Jail):** None. KRS §189A.100(1).
- **Preliminary Breath Test – Other:** N/A

- **Refusal to Take Implied Consent Chemical Test – Criminal Sanction (Fine/Jail):** None
- **Implied Consent Chemical Test - Other:** N/A

---

³¹⁶ It appears based upon the language of the statutes that if a “therapeutic” concentration would not render a person “under the influence,” such that it would impair the person’s driving ability, KRS §189A.010(1)(c), (e), then arguing that the level of the substance detected was merely therapeutic would be a valid defense.

³¹⁷ Pursuant to KRS §501.080, “Intoxication is a defense to a criminal charge only if such condition either: (1) Negatives the existence of an element of the offense; or (2) Is not voluntarily produced and deprives the defendant of substantial capacity either to appreciate the criminality of his conduct or to conform his conduct to the requirements of the law.” It does not appear that an appellate court in Kentucky has addressed whether this defense would apply in a DUI-D context.
Criminal Sanctions Following a DUI-D Conviction:

KRS §189A.010(11).

A first-time DUI offender is not subject to enhancement where the aggravating circumstance is refusal to submit to a chemical test. Commonwealth v. Gaitherwright, 70 S.W.3d 411 (Ky. 2002).

Fourth or subsequent offense – a mandatory minimum term of 240 days. KRS §189A.010(5), (11)(f).

Other: Service Fee: A DUI-D offender must pay a $375 service fee in addition to any other fine. KRS §189A.050.

Administrative Sanctions – Post-Conviction:

Substance Abuse Treatment: Yes. For subsequent DUI-D offense convictions, the defendant must be sentenced to an alcohol or substance abuse treatment program for 1 year. KRS §189A.040(2), (3).

Vehicle Impoundment/Confiscation: Impoundment
Authorized by Specific Statutory Authority: For a second or subsequent offense, if the court does not order the installation of ignition interlock devices on all the vehicles owned by an offender, it \textbf{MUST} impound the license plates of such vehicles for a period of time not exceeding the period of license action. KRS §189A.085.

Terms Upon Which Vehicle Will Be Released: A hardship exemption is available to other family members allowing only them to use the affected vehicles. KRS §189A.085.

Other Miscellaneous Sanctions: Reimbursement: If a person is placed on probation or given conditional release from incarceration, the court may require payment to either an education or treatment program for drug or alcohol abuse or for periodic testing. The amount of this payment is not to exceed the amount of any fine that could have been imposed for the offense. KRS §533.030.

\textsuperscript{320} For second or third offenses not related to aggravating circumstances, the law provides for discretionary community service as a sentencing option that is in addition to incarceration. KRS §189A.010(8).
Homicide by Vehicle:
State Has Such a Law: Yes

Manslaughter in the Second Degree – when a person wantonly causes the death of another person including situations where the death results from the person’s operation of a motor vehicle. KRS §507.040; Springer v. Com., 998 S.W.2d 439 (Ky. 1999).

Reckless Homicide – when a person, with recklessness causes the death of another person. KRS §507.050; Farmer v. Com., 6 S.W.3d 144 (Ky.App. 1999).

Imprisonment/Fine:
Manslaughter in the Second Degree (Class C Felony) - Not less than 5 years or more than 10 years and may be fined not less than $1,000 or more than $10,000.
Reckless Homicide (Class D Felony) - Not less than 1 year or more than 5 years and may be fined not less than $1,000 or more than $10,000. KRS §§532.060; 534.030.

Mandatory Minimum Term/Fine: See above.
Other: N/A

DUI-D Offenses and Commercial Motor Vehicles (CMV):
A person is “disqualified” from operating a CMV for 1 mandatory year (3 years if transporting hazardous materials) if, while driving a CMV, that person is under the influence of a controlled substance; or has refused to submit to a chemical test for either alcohol or drugs. For a subsequent violation or a combination of two or more violations of any of the above-listed items, the “disqualification” is for life (10 years mand).

In addition, a CMV operator who has any measurable (or detectable) amount of a controlled substance in the system must be placed “out-of-service” for 24 hours.

If a CMV operator refuses to submit to a chemical test (for an alcohol concentration or for the presence of other drugs) under the CMV implied consent law provisions, the operator’s privilege to operate a CMV can be either suspended or revoked:

First refusal – the CMV privilege is suspended for one year (mand);
Subsequent refusal – the privilege is suspended for life (mand).

However, if the operator fails to appear at the implied consent hearing, which is automatically scheduled in refusal situations, the CMV privilege is revoked; the length of this revocation is not specified.

The pre-trial and implied consent provisions of Ch. 189A also apply to CMV operators (KRS §281A.220(2)). KRS §§281A.010; 281A.190; 281A.210; 281A.2102; 281A.220.

321 The difference between the two manslaughter statutes lies within their degrees of culpability. Manslaughter in the second degree requires wantonness, which inherently includes recklessness. This is similar to voluntary manslaughter. Reckless homicide requires only recklessness, which is similar to involuntary manslaughter.
A person is prohibited from operating a CMV during either a CDL disqualification or a CDL out-of-service order. KRS §281A.090(2). However, neither this section nor any other provision of Chapter 281A provides a sanction for this prohibition.

326 This term refers to the impairment, however slight, to the ability of a person to operate an automobile. The impairment need not be complete, but only to the degree that the influence causes a person to operate his car in a manner different from that in which it would be operated by an ordinarily cautious and prudent person. State v. Reeder, 189 So.3d 401 (La. App. 5 Cir., 2015).

332 It appears based upon the language of the statute that if a “therapeutic” concentration would not render a person “under the influence,” such that it would impair the ability of a person to operate an automobile, La. R.S. §14:98, then arguing that the level of the substance detected was merely therapeutic would be a valid defense.

333 The listed criminal penalties for refusal to submit to an implied consent chemical test no longer apply to cases where a person has refused to submit to a blood test. Criminal penalties for refusal to submit to a blood test were abrogated by the Supreme Court on June 23, 2016. Birchfield v. North Dakota, 579 U.S. (2016).

339 Maine refers to the crime as an “OUI” offense (operating under the influence).
340 A “motor vehicle” means a self-propelled vehicle not operated exclusively on railroad tracks. A “motor vehicle” does not include a snowmobile, an all-terrain vehicle (unless the all-terrain vehicle is permitted in accordance with 29-A M.R.S.A. §501(8) or is operated on a way and 29-A M.R.S.A. §2080 applies), or a motorized wheelchair or electric personal assistive mobility device. 29-A M.R.S.A. §101(42).
341 “Under the influence” means that the offender’s mental or physical faculties were impaired, however slightly, or to any extent, by alcohol, drugs, or other intoxicants. State v. Soucy, 36 A.3d 910 (Me. 2012).
342 An “intoxicant” includes alcohol, a drug other than alcohol, a combination of drugs, or a combination of alcohol and drugs. 29-A M.R.S.A. §2401(13). A “drug” includes scheduled drugs defined under 17-A M.R.S.A. §1101, as well as any natural or artificial chemical substance that, when taken into the human body, can impair the ability of the person to safely operate a motor vehicle. 29-A M.R.S.A. §2401(4).

343 In Maine, technically a person shall be required to submit to a chemical test if he is involved in a crash that results or may result in death of any other person. 29-A M.R.S.A. §2522. However, this legislative exception to the search warrant requirement should be relied upon cautiously in light of the United States Supreme Court’s decisions in Birchfield v. North Dakota, 579 U.S. ______ (2016) (holding that the search incident to arrest exception to the warrant requirement does not apply to warrantless DUI blood draws); and Missouri v. McNeely, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance).

344 It appears based upon the language of the statutes that if a “therapeutic” concentration would not render a person “under the influence,” such that it would impair the offender’s mental or physical faculties, 29-A M.R.S.A. §2411(1-A)(A)(1), then arguing that the level of the substance detected was merely therapeutic would be a valid defense.

377 It appears based upon the language of the statutes that if a “therapeutic” concentration would not render a person “under the influence,” or “visibly impaired,” M.C.L.A. §257.625(1)(a), (3), then arguing that the level of the substance detected was merely therapeutic would be a valid defense.

378 It appears based on the language of the statutes that if a person were charged with driving under the influence, or while visibly impaired by an “intoxicating substance” that was not recognized as a drug, and was a substance other than food, used in manner or for a purpose for which it was intended, this would constitute a defense to the charge. M.C.L.A. §257.625(1)(a), (3), (25)(a).

382 A “motor vehicle” includes every self-propelled device by which any person or property is or may be transported or drawn upon a highway, and every such device that is propelled by electric power obtained from overhead trolley wires, including motorboats in operation and off-road recreational vehicles. M.S.A. §§169.011, subd. 92; 169A.03, subd. 15, subd. 25. The term does not include a vehicle moved solely by human power, or devices used exclusively upon stationary rails or tracks. Id.

383 A person is “under the influence” if the person does not possess that clearness of intellect and control of himself that he otherwise would have. State v. Ards, 816 N.W.2d 679 (Mich. App. 2012).

384 A “controlled substance” refers to a drug, substance, or immediate precursor in Schedules I through V of M.S.A. §152.02. M.S.A. §§152.01, subd. 4; 169A.03, subd. 6. The term does not include distilled spirits, wine, malt beverages, intoxicating liquors or tobacco. Id.

385 A “hazardous substance” means a chemical or substance, or mixture of chemicals and substances which: (1) is regulated by the Federal Occupational Safety and Health Administration under 29 C.F.R. §1910(z); or (2) is either toxic or highly toxic, an irritant, corrosive, strong oxidizer, strong sensitizer, combustible, flammable, dangerously reactive, pyrophoric, pressure-generating, compressed gas, carcinogen, teratogen, mutagen, reproductive toxic agent, or that otherwise, according to generally accepted documented medical or scientific evidence, may cause substantial acute or chronic personal injury or illness during or as a direct result of any customary or reasonably foreseeable accidental or intentional exposure to the chemical or substance; or (3) is determined by the commissioner as a part of the standard for the chemical or substance or mixture of chemicals and substances to present a significant risk to worker health and safety or imminent danger of death or serious physical harm to an employee as a result of foreseeable use, handling, accidental spill, exposure, or contamination. M.S.A. §182.651, subd. 14. A hazardous substance does not include a substance being developed or handled by a technically qualified individual in a research, medical research, medical diagnostic, or medical educational laboratory or in a health care facility or a clinic associated with the laboratory or health care facility, or in a pharmacy registered and licensed under M.S.A. §151, et seq. 387 Previously, a person’s refusal to submit to a chemical test (including a preliminary breath test) was penalized by admitting such a fact in to evidence. M.S.A. §§169A.41; 169A.45, subd 3. However, in State v. Thompson, 873 N.W. 2d 873 (Minn. App. 2015), the Minnesota Court of Appeals deemed warrantless blood and urine testing, as well as penalizing a person’s refusal to submit to a chemical breath test, unconstitutional. At the time of publication, this decision was currently under review.

388 Minnesota’s Implied Consent law authorizes a blood test. M.S.A. §169A.51, subd. 1. However in State v. Thompson, 873 N.W. 2d 873 (Minn. App. 2015), the Minnesota Court of Appeals deemed warrantless blood and urine testing, as well as penalizing a person’s refusal to submit to a chemical breath test unconstitutional. At the time of publication, this decision was currently under review.

389 Minnesota’s Implied Consent law authorizes a urine test. M.S.A. §169A.51, subd. 1. However in State v. Thompson, 873 N.W. 2d 873 (Minn. At the time of publication, this decision was currently under review.

390 In Minnesota, technically a driver is required to submit to a chemical test if there is probable cause to believe that the person violated criminal vehicular homicide or injury laws. M.S.A. §§169A.51, sub. 2(3); 169A.52, subd 1. Additionally, a person may be administered a blood test without consent if there is “probable cause” that the person committed an offense where blood test results could be used as evidence of a crime. See State v. Lee, 585 N.W.2d 378 (Minn. 1998). However, such statutory exception to the search warrant requirement should now be relied upon with caution in light of the United States Supreme Court’s decision in Missouri v. McNeely, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance). See also State v. Thompson, 873 N.W. 2d 873 (Minn. App. 2015).

391 It appears based upon the language of the statutes that if a “therapeutic” concentration would not render a person “under the influence,” M.S.A. §169A.20(2), (3), (4), then arguing that the level of the substance detected was merely therapeutic would be a valid defense.

392 A defendant must establish that he ingested the substance without knowing, or having reason to know, that it would likely have an intoxicating effect, and, by a preponderance of the evidence, he committed the offense while laboring under such a defect of reason from the involuntary intoxication as not to know the nature of his act or that it was wrong (temporary insanity). Criminal Sanctions Following a DUI-D Conviction:

Imprisonment/Fine:

(1) Fourth Degree DUI-D (no aggravating factors) (misdemeanor) – Not more than 90 days and/or not more than $1,000; M.S.A. §169A.27.
(2) Third Degree DUI-D (1 aggravating factor) (gross misdemeanor) – Not more than 1 year and/or not more than $3,000; M.S.A. §169A.26.
(3) Second Degree DUI-D (2 or more aggravating factors) (gross misdemeanor) – Not more than 1 year and/or not more than $3,000; M.S.A. §169A.25.
(4) First Degree DUI-D (felony) – within 10 years of the first 3 or more prior DUI incidents; or previously convicted of felony DUI; or previously convicted of DUI homicide – Not more than 7 years and/or not more than $14,000. M.S.A. §169A.24.

Criminal Vehicular Injury:

393 Under the Code, a person’s refusal to submit to a chemical test is penalized as follows:

- First refusal – Revocation not less than 90 days;
- Refusal occurring within 10 years of a prior impaired driving – Revocation not less than 1 year and until the court has certified that treatment or rehabilitation has been successfully completed;
- Second refusal (within 10 years of first) – Revocation not less than 2 years and denial of license until rehabilitation has been established;
- Third refusal (within 10 years of first) – Revocation not less than 3 years and denial of license until rehabilitation has been established;
- Fourth refusal (within 10 years of first) – Revocation for not less than 4 years;
- Fifth or subsequent refusal – Revocation for not less than 6 years. M.S.A. §§169A.52; 169A.54 subds. 1, 6.

In State v. Thompson, 873 N.W. 2d 873 (Minn. App. 2015), the Minnesota Court of Appeals deemed the legislative penalization of a person’s refusal to submit to a chemical breath test unconstitutional. At the time of publication, this decision was currently under review. Additionally, the listed criminal penalties for refusal to submit to an implied consent chemical test no longer apply to cases where a person has refused to submit to a blood test. Criminal penalties for refusal to submit to a blood test were abrogated by the Supreme Court on June 23, 2016. Birchfield v. North Dakota, 579 U.S. __________ (2016).

394 “Aggravating factor” means: (1) qualified prior DUI incidents within 10 years of the current offense; (2) having BAC of ≥ .20 at the time or within 2 hours of the offense; or (3) having a child < 16 in the motor vehicle at the time of the offense and such child is more than 36 months younger than the offender. M.S.A. §169A.03.

395 The elements of this crime include: (1) operating a motor vehicle in a grossly negligent manner; (2) in a negligent manner while under the influence of alcohol, a controlled substance or any combination; (3) while having a BAC of ≥ .08; (4) while having a BAC of ≥ .08 within 2 hours of driving; (5) in a negligent manner while knowingly under the influence of a hazardous substance; or (6) in a negligent manner while any amount of a controlled schedule I or II substance (other than marijuana or tetrahydrocannabinols) is present in the body. M.S.A. §609.2113.

396 For felony offenses, mandatory fines are based on 30% of the maximum statutory fine. For a gross misdemeanor or misdemeanor, mandatory fines are based on 30% of the maximum statutory fine or on 30% of the maximum fine for such offenses in the uniform fine schedule (which is lower than the statutory fine). Additionally, if the court finds that imposition of a fine would create an undue hardship for the convicted person or that person’s immediate family, the court may reduce the fine amount to not less than $50. M.S.A. §609.101.

397 Based on mitigating circumstances, the court may sentence a person without regard to the mandatory sanctions. However, any sanction that is imposed must include not less than 48 hours of consecutive incarceration or at least 80 hours of community service. M.S.A. §169A.275, subd. 1(d). Administrative Sanctions – Post-Conviction:
Substance Abuse Education: Yes. M.S.A. §169A.275, subd 5.
Substance Abuse Treatment: Yes. M.S.A. §169A.275, subd 5. Except for mandatory criminal sanctions, the court may stay imposition of fine or jail sentence but not the licensing action if defendant submits to treatment as recommend by the assessment report under M.S.A. §169A.70 or as otherwise determined by the court. 401 A “vehicle” means every device in, upon or by which any person or property is or may be transported or drawn upon a highway, except devices used exclusively upon stationary rails or tracks. Miss. Code Ann. §63-3-103(a).

402 A person is “under the influence” circumstances indicate that his ability to operate a vehicle was impaired by the consumption of a substance other than liquor, or a controlled substance. See, e.g., Oatis v. State, 146 So.3d 1015 (Miss. App. 2014).

403 A “motor vehicle” means every vehicle which is self-propelled and every vehicle which is propelled by electric power obtained from overhead trolley wires, but not operated upon rails. Miss. Code Ann. §63-3-103(b). The term does not include electric personal assistive mobility devices. Id.

404 The term “drug” includes (1) substances recognized as drugs in the official United States Pharmacopoeia, official Homeopathic Pharmacopoeia of the United States, or official National Formulary, or any supplement to any of them; (2) substances intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in man or animals; (3) substances other than food intended to affect the structure or any function of the body of man or animals; and (4) substances intended for use as a component of these, but not any device or their components, parts, or accessories. Blood: No. Miss. Code Ann. §63-11-5. However, a person shall give his consent to chemical test(s) of his blood for the purpose of determining the presence in his body of substances besides alcohol which would impair the person’s ability to drive. Id.

Urine: No. Miss. Code Ann. §63-11-5. However, a person shall give his consent to chemical test(s) of his urine for the purpose of determining the presence in his body of substances besides alcohol which would impair the person’s ability to drive. Id.

Individuals Authorized to Perform Chemical Testing (Blood):

Blood Drawn Pursuant to Implied Consent – State Has Limited Who May Perform: Yes – For DUI-D cases, appears to only be limited where a fatal accident has occurred, to persons trained to withdraw blood in the course of their employment duties including but not limited to laboratory personnel, phlebotomist, emergency medical personnel, nurses and doctors. Miss. Code Ann. §§63-11-3; 63-11-8. See also Cutchens v. State, 310 So.2d 273 (Miss. 1975).

It appears that the procedures formally adopted in the Mississippi Administrative Code only pertain to blood alcohol testing. See MS 31-5-2:1750.000, et seq.

408 It appears based upon the language of the statute that if a “therapeutic” concentration would not render a person “under the influence,” Miss. Code Ann. §63-11-30(1), then arguing that the level of the substance detected was merely therapeutic would be a valid defense.
409 It does not appear that any Mississippi statutes or appellate cases have addressed this defense in a DUI-related context.
410 The listed criminal penalties for refusal to submit to an implied consent chemical test only apply to cases where a person has refused to submit to a breath test—not a blood test. Miss. Code Ann. §63-11-21. Criminal penalties for refusal to submit to a blood test were abrogated by the Supreme Court on June 23, 2016. Birchfield v. North Dakota, 579 U.S. (2016).

414 Effective January 1, 2017 a majority of the applicable Missouri code sections will be amended or merged with existing code sections and/or re-numbered.

415 “Motor vehicle” means every vehicle that is self-propelled and every vehicle that is propelled by electric power obtained from overhead trolley wires. The term includes motorboats in operation and off-road recreational vehicles, but does not include a vehicle moved solely by human power. V.A.M.S. §169A.03.

416 For purposes of a prosecution for driving while intoxicated (DWI), the term “drugged condition” has been equated with “intoxicated condition” and, as a result, the two terms may be used interchangeably. State v. Honsinger, 386 S.W.3d 827 (App. S.D. 2012). In this circumstance, a person is in an “intoxicated condition” when a person is under the influence of alcohol, a controlled substance, or drug, or any combination thereof. V.A.M.S. §577.001(3).

417 Exceptions: (1) Reasonable grounds for belief is sufficient for persons under age 21; (2) A person was involved in a vehicle collision which resulted in a fatality, a readily apparent serious physical injury, or serious physical injury. V.A.M.S. §577.020.1.
Entity Establishing Testing Protocols: Yes. Testing shall be performed according to methods approved by the State Department of Health and Senior Services by licensed medical personnel or by a person possessing a valid permit issued by the State Department of Health and Senior Services for this purpose. The State Department of Health and Senior Services shall approve satisfactory techniques, devices, equipment, or methods to be considered valid and shall establish standards to ascertain the qualifications and competence of individuals to conduct analyses and to issue permits which shall be subject to termination or revocation by the State Department of Health and Senior Services. V.A.M.S. §577.020(3), (4).

Blood Drawn Pursuant to Search Warrant – State Has Limited Who May Perform: No

Independent Testing: The person tested may have a physician, or a qualified technician, chemist, registered nurse, or other qualified person at the choosing and expense of the person to be tested, administer a test in addition to any administered at the direction of a law enforcement officer. The failure or inability to obtain an additional test by a person shall not preclude the admission of evidence relating to the test taken at the direction of a law enforcement officer. V.A.M.S. §577.020(5).

Non-Implied Consent Blood Draws: Any legislative exceptions to the search warrant requirement should be relied upon cautiously in light of the United States Supreme Court’s decision in Missouri v. McNeely, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance).

Adjudication of DUI-D Charges: No. Deferred imposition of sentence is available for certain driving while intoxicated offenses and require a minimum of two years of probation. V.A.M.S. §577.010(2).

Anti-Plea-Bargaining Statute (Yes/No): No

Pre-Sentencing Investigation Law (PSI) (Yes/No): No

Therapeutic Concentration: No. V.A.M.S. §562.076

Involuntary Intoxication: Yes. V.A.M.S. §562.076

1. A person who is in an intoxicated or drugged condition, whether from alcohol, drugs or other substance, is criminally responsible for conduct unless such condition is involuntarily
produced and deprived him of the capacity to know or appreciate the nature, quality or wrongfulness of his conduct.  
2. The defendant shall have the burden of injecting the issue of intoxicated or drugged condition.

\(^{421}\) "Under the influence" means that as a result of taking into the body alcohol, drugs, or any combination of alcohol and drugs, a person’s ability to safely operate a vehicle has been diminished. MCA §61-8-401.

\(^{422}\) "Drug" means a substance: (a) recognized as a drug in any official compendium or supplement; (b) intended for use in diagnosis, cure, mitigation, treatment, or prevention of disease in humans or animals; (c) other than food, intended to affect the structure or function of the body of humans or animals; and (d) intended for use as a component of a substance specified in subsection (16)(a), (16)(b), or (16)(c). Non-Implied Consent Blood Draws: Any legislative exceptions to the search warrant requirement should be relied upon cautiously in light of the United States Supreme Court’s decision in Missouri v. McNeely, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance).

425 The fact that any person is or has been entitled to use alcohol or a drug under the laws of this State does not constitute a defense. MCA §61-8-401(2).

426 It appears based upon the language of the statute that if a “therapeutic” concentration would not render a person incapable of operating a vehicle safely, arguing that the level of the substance detected was merely therapeutic would be a valid defense.

427 See City of Missoula v. Paffhausen, 289 P.3d 141, 367 Mont. 80 (2012) (since the State had to prove that the defendant committed the act of driving or being in actual physical control of a vehicle, defendant should be allowed to offer rebuttal evidence that she did not do so voluntarily as contemplated and provided for by Montana law).

The State's Public Service Commission and Department of Motor Vehicles and Public Safety have promulgated regulations that adopt by reference 49 CFR Parts 383 and 392. N.R.S. §483.908. If there are “reasonable grounds to believe” that a CMV operator is under the influence of a controlled substance, or has violated any provision of the DUI or DUI vehicle homicide laws, a law enforcement officer must administer a blood, breath, or urine test to such driver in order to determine the presence of a controlled substance in the operator’s system.

It is a misdemeanor to violate a State regulation. The

525 “Vehicle” means every device, including a motorized bicycle, in, upon, or by which any person or property may be transported or drawn upon a highway, except that “vehicle” does not include any motorized wheelchair, any electric personal assistive mobility device, any device that is moved by power collected from overhead electric trolley wires or that is used exclusively upon stationary rails or tracks, or any device, other than a bicycle, that is moved by human power. R.C. §4511.01(A).

526 “Drug of abuse” includes the following controlled substances, or metabolites of a controlled substance: amphetamines, cocaine, heroin, L.S.D., marijuana, phencyclidine, and salvia divinorum

527 “Controlled substance” means: (1) any substance classified as a controlled substance under the “Controlled Substances Act,” 80 Stat. 1242 (1970), 21 U.S.C.A. 802(6), as amended; (2) any substance included in schedules I through V of 21 C.F.R. part 1308, as amended; or (3) any drug of abuse.

528 However, a field sobriety test may be given. Evidence of such test may be presented in a criminal case so long as it is shown by clear and convincing evidence that the officer administered the test in substantial compliance with testing standards. R.C. §4511.194(C). Further, the result of a portable breath test is a factor, in addition to field sobriety tests, upon which a law enforcement officer may base probable cause for arrest.

529 The code states that a chemical test shall be administered at the request of an officer having reasonable grounds to believe a person was operating a vehicle in violation of the DWI (OVI) statute. It also states that if an officer arrests a person for a violation, the officer shall request such person to submit to a chemical test. R.C. §4511.191(A)(3), (5). Based on this language, it appears that arrest is not required for an officer to request someone to submit to a test. However, if there is an arrest, then the officer is mandated to give such test.

A person is “disqualified” from operating a CMV for 1 mandatory year (3 years if transporting hazardous materials) if, while driving a CMV, that person is under the influence of a controlled substance or refuses to submit to a chemical test for the presence of controlled substances. R.C. §4506.17(E)(1).

For a subsequent violation or a combination of two or more violations of any of the above-listed items, the “disqualification” is for life (or for any other period as specified by Federal regulations). R.C. §4506.17(E)(2).
A person is “disqualified” for a period of 180 days for a violation of an “out-of-service” order. For a second or subsequent violation within 10 years the disqualification period is 2 years. For a third or subsequent within 10 years, a 3 years suspension. R.C. §4506.16(A)(1)-(3).

Standard DUI-D Offense:

II. Drive or operate a motor vehicle while his ability to operate such motor vehicle is impaired by the consumption of any substance, other than alcohol, which is capable of being ingested, inhaled, injected or absorbed into the human body and is capable of adversely affecting the central nervous system, vision, hearing or other sensory or motor functions. 47 Okl.St.Ann. §761.

539 “Motor Vehicle” means: any vehicle which is self-propelled or propelled by electric power obtained from overhead trolley wires, but not operated upon rails. 47 Okl.St.Ann. §1-134.

540 As used in this title, the term “other intoxicating substance” shall mean any controlled dangerous substance as defined in the Uniform Controlled Dangerous Substances Act and any other substance, other than alcohol, which is capable of being ingested, inhaled, injected or absorbed into the human body and is capable of adversely affecting the central nervous system, vision, hearing or other sensory or motor functions. 47 Okl.St.Ann. §751(A)(2).

541 See 63 Okl.St.Ann. §2-204 for a complete list of Schedule I controlled substances.

542 47 Okl.St.Ann. §751 allows for a law enforcement officer, without a warrant, to take a blood sample from an individual who is unconscious or otherwise incapable of consenting to a test. However, this legislative exception to the search warrant requirement should be relied upon cautiously in light of the United States Supreme Court’s decision in Missouri v. McNeely, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance).
Other Information:

I. A mandatory chemical test may be ordered in situations (1) where there is probable cause that a person while intoxicated has operated a motor vehicle and that such operation has caused either death or serious physical injury to another person or (2) upon issuance of a search warrant. 47 Okl.St.Ann. §753(A).

II. A mandatory chemical test for alcohol/drugs may be ordered in traffic accident situations where the driver (person to be tested) has been cited for a traffic offense. 47 Okl.St.Ann. §10-104(B).

565 The fact that a person charged with violating this chapter is or has been legally entitled to use alcohol or controlled substances is not a defense to a charge of violating this chapter. 75 Pa.C.S.A. §3810.  
566 It appears based upon the language of the statute that if a therapeutic concentration would not render a person “under the influence,” or “impair” the person’s ability to safely operate a vehicle, arguing that the level of the substance detected was merely therapeutic would be a valid defense. 75 Pa.C.S.A. §3802.  
567 18 Pa.C.S.A. §308 specifically instructs that voluntary intoxication is not a defense. The fact the legislature did not include involuntary intoxication suggests that involuntary intoxication may be available as a defense.

Other:

Extended supervision of court: If after the initial drug and alcohol assessment, a defendant is determined to be in need of additional treatment, the judge shall impose a minimum sentence as provided by law and a maximum sentence equal to the statutorily available maximum. A sentence to the statutorily available maximum imposed pursuant to this subsection may, in the discretion of the sentencing court, be ordered to be served in a county prison. 75 Pa.C.S.A. §3804(d).

Accelerated Rehabilitative Disposition (ARD): A first-time offender may be placed in ARD. Acceptance into and satisfactory completion of the program may lead to dismissal and expungement of the charge.
ARD applies to a first offense within ten years and is not available if a crash caused death or serious bodily injury to others, or if a passenger under 14 was in the vehicle at the time of the offense.
Acceptance of ARD is considered a first conviction for purposes of computing any subsequent violations. A driver under 21 placed on ARD undergoes a 90-day license suspension. 75 Pa.C.S.A.§3807.

However, any legislative exception to the search warrant requirement should be relied upon cautiously in light of the United States Supreme Court’s decision in Missouri v. McNeely, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance).

The Virginia Court of Appeals has held, in an en banc decision that it is constitutional under both the Federal and State constitutions to admit evidence of a person’s refusal to submit to “field sobriety tests.” Farmer v. Commonwealth, 404 S.E.2d 371 (Va. App. 1991).

[650] However, any legislative exception to the search warrant requirement should be relied upon cautiously in light of the United States Supreme Court’s decision in Missouri v. McNeely, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance).

668 “Vehicle” means every device by which any person or property is or may be transported or drawn upon a highway, except devices moved by human power or used exclusively upon stationary rails or tracks or wheelchairs. W. Va. Code §17C-1-2.

669 “Controlled substance” means any substance classified under the provisions of chapter 66A of this code, the Uniform Controlled Substances Act, and includes all substances listed on Schedules I through V. “Drug” has the same meaning as set forth in W. Va. Code §66A-1-101, the Uniform Controlled Substances Act, that when taken into the human body can impair the ability of a person to operate a vehicle safely and in compliance with traffic regulations and the laws of the road. W. Va. Code §17C-1-67; 68.
Individuals Authorized to Perform Chemical Testing (Blood):

Blood Drawn Pursuant to Implied Consent – State Has Limited Who May Perform:

Yes. Only a doctor of medicine or osteopathy, or registered nurse, or trained medical technician at the place of his or her employment, acting at the request and direction of the law-enforcement officer, may withdraw blood to determine the alcohol concentration in the blood, or the concentration in the blood of a controlled substance, drug, or any combination thereof. W. Va. Code §17C-5-6.

Entity Establishing Testing Protocols:

Blood Drawn Pursuant to Search Warrant – State Has Limited Who May Perform:

W. Va. Code §17C-5-6.

Adjudication of DUI-D Charges:

Mandatory Adjudication Law (Yes/No):

Other:

Sanctions for Refusal to Submit to a Chemical Test:

Refusal to Take a Preliminary Breath Test - Criminal Sanction (Fine/Jail): None

Preliminary Breath Test – Other:

Refusal to Take Implied Consent Chemical Test: None

670 It appears based upon the language of the statute that if a therapeutic concentration would not render a person “under the influence,” or “impair” the person’s ability to safely operate a vehicle, arguing that the level of the substance detected was merely therapeutic would be a valid defense. W. Va. Code §17C-5-2.
Test – Criminal Sanction (Fine/Jail):

Implied Consent Chemical Test - Other: Revocation shall run concurrently with the period of suspension / revocation imposed under other provisions of law and growing out of the same incident that gave rise for the arrest. W. Va. Code §17C-5-7(a).

With respect to a particular individual, which the individual represents or intends to have a stimulant, depressant, narcotic or hallucinogenic effect on the central nervous system substantially similar to the stimulant, depressant, narcotic or hallucinogenic effect on the central nervous system of a controlled substance included in schedule I or II. **W.S.A. §961.01(4), (am)(11)(a).**

677 Under W.S.A. §343.305 a law enforcement officer may obtain a sample under “any other lawful means.” However, this legislative exception to the search warrant requirement should be relied upon cautiously in light of the United States Supreme Court’s decision in **Missouri v. McNeely**, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance).
The defendant has a defense if he or she proves by a preponderance of the evidence that at the time of the incident or occurrence he or she had a valid prescription for methamphetamine or one of its metabolic precursors, gamma-hydroxybutyric acid, or delta-9-tetrahydrocannabinol. W.S.A. §346.63(d).

Implied Consent Law Applies to Drugs (Yes/No): Yes. W.S.A. §343.305(2).

Refusal to Submit to Chemical Test Admitted into Evidence: Yes – Criminal cases. State v. Albright, 298 N.W.2d 196 (Wis. App. 1980).

Non-Breath Chemical Tests for Drug Concentration Authorized Under the Implied Consent Law:

Blood: Yes. W.S.A. §343.305(2).

Urine: Yes. W.S.A. §343.305(2).

Other: None.

Individuals Authorized to Perform Chemical Testing (Blood):

Blood Drawn Pursuant to Implied Consent – State Has Limited Who May Perform: Yes. Blood may be withdrawn only by a physician, registered nurse, medical technologist, physician assistant, phlebotomist, or other medical professional who is authorized to draw blood, or person acting under the direction of a physician. W.S.A. §343.305(b).

Blood Drawn Pursuant to Search Warrant – State Has Limited Who May Perform: No

Independent Testing: The person who submits to the test is permitted, upon request, the alternative test provided by the agency or, at his or her own expense, reasonable opportunity to have any qualified person of his or her own choosing administer a chemical test. W.S.A. §343.305(5).

Adjudication of DUI-D Charges:

Mandatory Adjudication Law (Yes/No): No

Anti-Plea-Bargaining Statute (Yes/No): No. However, the court must approve dismissals of or amendments to DUI charges. Additionally, a prosecutor may not place a person charged with DUI in a deferred disposition program. W.S.A. §967.055(2), (3).

Pre-Sentencing Investigation Law (PSI) (Yes/No): Yes. In felony cases, the court may order a pre-sentence investigation. W.S.A. §972.15.

Affirmative Defenses to DUI-D Charge:

678 The defendant has a defense if he or she proves by a preponderance of the evidence that at the time of the incident or occurrence he or she had a valid prescription for methamphetamine or one of its metabolic precursors, gamma-hydroxybutyric acid, or delta-9-tetrahydrocannabinol. Therapeutic Concentration: Yes. It appears based upon the language of the statute that if a therapeutic concentration would not render a person “under the influence,” or affect the person’s ability to safely operate a vehicle, arguing that the level of the substance detected was merely therapeutic would be a valid defense to an under the influence charge, but not applicable to a per se offense. 682 “Vehicle” means every device, in, upon, or by which any person or property is or may be transported or drawn upon a highway, except devices used exclusively upon stationary rails or tracks. W.S. 1977 §31-5-102(lviii).

683 “Controlled substance” includes any drug, glue or other toxic vapor intentionally inhaled or sniffed which results in impairment of an individual’s ability to drive safely, or psychoactive substance, or any combination of these substances, capable of impairing a person’s physical or mental faculties. W.S. 1977 §§31-5-233(a(ii); 31-6-101(a(ii).

684 Technically, W.S. 1977 §§31-6-102 provides an officer an ability to take blood without consent of the arrested individual. However, this legislative exception to the search warrant requirement should be relied upon cautiously in light of the United States Supreme Court’s decision in Missouri v. McNeely, 133 S.Ct. 1552 (2013) (holding that an evidentiary blood draw constitutes a search which either requires a warrant or an exception to the warrant requirement, and the natural dissipation of alcohol in the bloodstream does not create a per se exigent circumstance).
