

**VEHICLE INFORMATION / TEST SPECIFICATIONS**  
**FMVSS No. 206**

1. Please describe whether each motor vehicle sliding side door contains at least one primary door latch system, or if it contains a door system with a fully latched position and a door closure warning system visible by the driver. (Note: a Primary Door Latch is a latch equipped with both a fully latched position and a secondary latched position and is designated as a primary door latch by the manufacturer). Please include an illustration as well, showing the location and designation of all latch systems for each vehicle sliding side door.
