Project Title: Impairment Monitoring to Promote Avoidance of Crashes Using Technology (IMPACT)

Project Manager: Eric Traube

Description: This project's goal is to determine what indicators of BAC (Blood Alcohol Concentration) and impaired driving are reliable, feasible, and robust enough to incorporate into vehicle-based countermeasures.

Project Initiation Date: Oct 2007

CloseDate: Mar 2010

Contract Number: DTNH22-06-D-00043-0002

Project Awarded To: National Advanced Driving Simulator, the University of Iowa (NADS)

Total Contract Cost: \$2,500,000
