

## Projected Fuel Economy Performance Report

NHTSA is providing projected fuel economy performance values for manufacturers and fleets as a supplement to other reporting provided through the CAFE Public Information Center<sup>1</sup> which contains only EPA verified final model year data. The data in this report are projected values based on each manufacturer's Pre- and Mid-Model Year Reports (required by 49 CFR 537) and have not been validated or verified by NHTSA or EPA. For further questions, please contact the NHTSA CAFE Enforcement team by email at [CAFE@dot.gov](mailto:CAFE@dot.gov).
