February 27, 2020

Richard Simon, Region 2 Administrator
National Highway Traffic Safety Administration
245 Main Street, Suite 210
White Plains, NY 10601

Dear Mr. Simon:

In accordance with U.S.C. 23 §1300.13(d), please find the 2020 Automated Traffic Enforcement Systems Survey for the state of Pennsylvania.

If you have any questions, please contact Thomas Glass, Manager, Program Services Unit, at (717) 783-2113.

Sincerely,

Gavin Gray, P.E., Chief
Highway Safety Section
Bureau of Maintenance and Operations

Enclosure
General
1. Name of Jurisdiction: Pennsylvania Department of Transportation
2. Type of Government Entity: State Government
3. Population: 12.7 Million (based on 2010 Census)
4. Type of automated enforcement system used: Red Light Camera, Automated Work Zone Speed Enforcement (AWZSE), Automated Speed Enforcement (ASE) along Roosevelt Blvd., and Automated School Bus Side Arm Enforcement
5. Did the jurisdiction refer to and follow federal DOT “Speed Enforcement Camera Systems Operational Guidelines” when implementing its automated enforcement system? Yes, PennDOT’s Temporary Regulation for the approval of automated speed timing devices Pennsylvania Code Title 67, Chapter 105a, established temporary regulations which specifically calls out NHTSA technical specifications. For the document, please go to: http://www.pacodeandbulletin.gov/Display/pabull?file=/secure/pabulletin/data/vol49/49-51/1892.html
6. Did the jurisdiction refer to and follow FHWA “Red Light Camera Systems Operational guidelines” when implementing its automated enforcement system? Yes
7. Ownership of system (camera & equipment): Contracted/leased

Transparency
1. Are placement locations of automated enforcement publicly available? Yes, please see the Automated Enforcement Comparison Document for additional details.
2. Is information regarding automated enforcement revenue publicly available? Yes, please see Automated Enforcement Comparison Document for additional details.
3. Is information regarding the disbursement of this revenue publicly available? Yes, most is legislatively identified, and all grant programs associated with the disbursement of revenue are provided through press releases.
4. Is the number of automated enforcement citations issued publicly available? Yes, please see the Automated Enforcement Comparison Document for additional details.
5. Upon deployment at a specific location, is there a warning period before citations are issued? Yes, please see the Automated Enforcement Comparison Document for additional details.

Accountability
1. Are citations reviewed and signed by a sworn law enforcement officer? Yes, please see the Automated Enforcement Comparison Document for additional details.
2. Is there a system in place for dispute resolution? Yes, each program has a slightly different process for appeals, but each has at least one formal hearing associated with the program. For additional details see the Automated Enforcement Comparison document.
3. Is the automated enforcement program audited? Yes.

Safety Attributes
1. Is traffic data (engineering & crash) utilized to determine placement of enforcement platforms? Yes, ASE along Roosevelt Blvd. utilized crash data and speed data to determine the most appropriate locations. AWZSE is utilizing a data driven process of evaluating crash data, speed information, construction activities to determine the best location for deployment.
2. Does the jurisdiction analyze traffic data to determine its automated enforcement’s impact on safety elements (i.e. crashes, speed, etc.)? Yes, most programs require annual reporting to PA legislature.
## Purpose/Goals:

- Improve safety at signalized intersections by providing automated enforcement at locations where red-light running has been an issue.
- Improve safety at signalized intersections by providing automated enforcement at locations where red-light running has been an issue.
- • Reduce Speeds in Work Zones
  • Improve Driver Behavior
  • Save Worker and Traveler Lives
  • Complement existing enforcement by PSP
  • Promote Work Zone Safety
- Improve safety at signalized intersections by providing automated speed enforcement at locations where red-light running has been an issue.

## Initial Legislation or Last Update

- Act 101 of 2016 – 07/20/2016
- Act 101 of 2016 – 07/20/2016
- Act 86 of 2018 – 10/19/2018
- Act 159 of 2018 – 10/24/2018

## Vehicle Code References

- 75 Pa.C.S. §3116
- 75 Pa.C.S. §3117
- 75 Pa.C.S. §3369
- 75 Pa.C.S. §3370
- 75 Pa.C.S. §3345.1

## Legislation Sunset

- 07/15/2027
- 07/15/2017
- 02/16/2024 (5-yr Initial Pilot Program)
- 12/19/2023 (5-yr. Initial Pilot Program)
- No Sunset Date

## Regulations

- 67 PA. CODE CH. 233 - Transportation Enhancement Grants from Automated Red Light Enforcement System Revenues
- 67 PA. CODE CH. 105a - Automated Speed Enforcement Systems; Temporary Regulations
- 67 PA. CODE CH. 105a - Automated Speed Enforcement Systems; Temporary Regulations
- 67 PA. CODE CH. 171a - School Bus Signal Arm Enforcement Systems; Temporary Regulation

### 2019/20 PA Bulletin Announcements or Key Press Releases

- • 05/25/2019 – 2019 ARLE Program Applications (49 Pa.B. 2687)
- • 06/08/2019 – 2019 ARLE Program Amended Online Application (49 Pa.B. 3026)
- • 12/17/2019 – 2019 ARLE Awards (Article)
- • 04/26/2019 – D-2 Work Zone Media (Article 1301)
- • 10/30/2019 – AWZSE Program Announcement Press Release (Articles 709, 672)
- • 12/21/2019 – Automated Speed Enforcement Systems; Temporary Regulations (49 Pa.B. 7410)
- • 12/28/2019 – Automated Speed Enforcement System and Speed Timing Device Approvals (49 Pa.B. 7657)
- • 12/28/2019 – Approved Speed Timing Devices and Appointment of Maintenance and Calibration Stations (49 Pa.B. 7654)
- • 01/13/2020 - City of Philadelphia Installation of Speed Cameras on Roosevelt Blvd. Begins (Article)
- • 12/28/2019 – Automated Speed Enforcement System and Speed Timing Device Approvals (49 Pa.B. 7657)
- • 12/28/2019 – Approved Speed Timing Devices and Appointment of Maintenance and Calibration Stations (49 Pa.B. 7654)
- • 01/04/2020 – Operational Automated Speed Enforcement System in Work Zones under 75 PA.C.S §3369 (49 Pa.B. 129)
- • 01/06/2020 – AWZSE Pre-Enforcement Period Press Release (Articles 697, 797)
- • 11/04/2019 – School Bus Safety Press Release (Article 674)

### Enforcement Eligibility

- • PPA must obtain approval from the City of Philadelphia through an ordinance for ARLE intersection and approval from PennDOT (Secretary of Transportation) for the enforcement intersections.
- • Municipality with population of greater than 20,000 with a police agency accredited by the Pennsylvania Chiefs of Police in a second-class A county (Bucks, Montgomery, Delaware)
- • Bullet above except a third-class county with population between 490,000 and 510,000 based on 2010 Census (Chester).
- • City of the Second Class (Pittsburgh)
- • PennDOT - All federal aid highways with an active work zone
- • Turnpike – All Turnpike highways with an active work zone
- • Roosevelt Boulevard (U.S. 1) between Ninth Street and the Philadelphia/Bucks County Line. Approximately 12-miles
- • School Districts and/or Bus Companies that want to provide this enforcement capabilities.

Verification Imagery for Permitted Required Signs

Roles and Lead Agencies

1/16/2020

Minimum two images to ensure violation occurred based stop bar.

Two Frontal and two rear photos of vehicle and license plate permitted.

Frontal images will primarily be used for Commercial Vehicles. Personally, identifying photos prohibited and people must be blacked out.

Only rear photos of vehicle and license plate. Frontal photos are strictly forbidden.

No additional signs required.

Automated Red-Light Enforcement (ARLE)

Automated Work Zone Speed Enforcement (AWZSE)

Automated Speed Enforcement (ASE) on Roosevelt Blvd. (U.S. 1)

School Bus Side Signal Arm Enforcement Systems

Program Element

1st Class Cities

2nd Class and Certain Municipalities

• PennDOT – Provides Secretary approval of ARLE Equipment, ARLE Locations, and Administrators the Grant Funding Program based on revenues from the Program. Also, Secretary appoints 4 members to ARLE Selection team.

• City of Philadelphia Office of Transportation, Infrastructure, and Sustainability (oTIS) – Provides oversight for Mayor in ARLE Locations and selection and participation on the ARLE Selection Team.

• Philadelphia Parking Authority (PPA) – System Administrator and responsible for program reporting and management of automated enforcement vendor.

• McMahon Associates, Inc – Provide Engineering assistance to PPA and develop drawings for program

• Conduent, Inc. – City of Philadelphia ARLE vendor responsible for turn-key solution of having equipment, enforcement software, annual calibrations, lead processing of violations and ensuring payment and tracking of payments.

• GATSO USA, Inc. – Abington Township ARLE vendor responsible for turn-key solution of having equipment, enforcement software, annual calibrations, assisting with the processing of violations and ensuring payment and tracking of payments.

• PennDOT – Provides Secretary approval of ARLE Program

• Postings of an appropriate sign in a conspicuous place before the area in which the automated red-light enforcement device is to be used notifying the public that an automated red-light enforcement device is in use.

• Postings of an appropriate sign in a conspicuous place before the area in which the automated red-light enforcement device is in use.

• PennDOT – Provides Secretary approval of ARLE Equipment, ARLE Locations, and Administrators the Grant Funding Program based on revenues from the Program.

• Abington Township – System Administrator and responsible for all activities associated with the ARLE Program

• GATSO USA, Inc. – Abington Township ARLE vendor responsible for turn-key solution of having equipment, enforcement software, annual calibrations, assisting with the processing of violations and ensuring payment and tracking of payments.

• PennDOT – Provides Secretary approval of AWZSE Approval, Selection of Active Enforcement zones on PennDOT roadways, Lead for Inter-Agency agreement, Program Administrator contract, Co-management of Vendor Contract, Annual Reporting, fiscal management responsibility, and other program needs as needed.

• PTC – Selection of Active Enforcement zones on Turnpike, Program Auditing, Co-management of Vendor Contract, Lead with Procurement of Vendor, and additional program needs as needed.

• RKDK, LLP – Program Administrator who is assisting PennDOT and PTC with all program aspects to get the program running and ensure program sustainability throughout the pilot program period.

• PSP – Legislatively identified to review and concurring with violations before being issued by vendor. Additional periodic testing as appropriate to ensure program credibility.

• Redflex Traffic Systems – AWZSE enforcement vendor responsible for turn-key solution of having equipment, enforcement software, annual calibrations, lead processing of violations and ensuring payment and tracking of payments.

• Verra Mobility, Inc. – City of Philadelphia ASE vendor responsible for turn-key solution of having equipment, enforcement software, annual calibrations, lead processing of violations and ensuring payment and tracking of payments.

Required Signs

• 2 warning signs prior to the enforcement device. 1 sign shall identify whether enforcement is active. – Some sign identifying Active Enforcement was selected to simplify and as well be more transparent – FHWA PA Approved 41/21/2019.

• 1 sign at the end of automated work zone. – End Roadwork Sign will be utilized

• 1 sign at the enforcement vehicle – Automated Enforcement Sign on Vehicle

• 2 warning signs prior to the enforcement zone on each end.

• 2 warning signs placed at 2-mile spacing through the corridor

• Ordinance provides clarification and, in some cases, adds additional signs by requiring that at least one sign shall be posted before the area in which each Enforcement area is utilized providing advanced notification immediately ahead.

• All signs being utilized are MUTCD compliant with R10-18 and R10-18P

Permitted Imagery for Violation Verification

Minimum two images to ensure violation occurred based stop bar.

Minimum two images to ensure violation occurred based stop bar.

Minimum two images to ensure violation occurred based stop bar.

Minimum two images to ensure violation occurred based stop bar.

Two Frontal and two rear photos of vehicle and license plate permitted.

Frontal images will primarily be used for Commercial Vehicles. Personally, identifying photos prohibited and people must be blacked out.

Only rear photos of vehicle and license plate. Frontal photos are strictly forbidden.

Video sublimates and is evidence for the School Bus Operators report.

Lead Agencies Roles and Responsibilities

- Abington Township – System Administrator and responsible for all activities associated with the ARLE Program

- GATSO USA, Inc. – Abington Township ARLE vendor responsible for turn-key solution of having equipment, enforcement software, annual calibrations, assisting with the processing of violations and ensuring payment and tracking of payments.

- PennDOT – Provides Secretary approval of ARLE Equipment, ARLE Locations, and Administrators the Grant Funding Program based on revenues from the Program. Also, Secretary appoints 4 members to ARLE Selection team.

- City of Philadelphia Office of Transportation, Infrastructure, and Sustainability (oTIS) – Provides oversight for Mayor in ARLE Locations and selection and participation on the ARLE Selection Team.

- Philadelphia Parking Authority (PPA) – System Administrator and responsible for program reporting and management of automated enforcement vendor.

- McMahon Associates, Inc – Provide Engineering assistance to PPA and develop drawings for program

- Conduent, Inc. – City of Philadelphia ARLE vendor responsible for turn-key solution of having equipment, enforcement software, annual calibrations, lead processing of violations and ensuring payment and tracking of payments.

- GATSO USA, Inc. – Abington Township ARLE vendor responsible for turn-key solution of having equipment, enforcement software, annual calibrations, assisting with the processing of violations and ensuring payment and tracking of payments.

- PennDOT – Provides Secretary approval of AWZSE Approval, Selection of Active Enforcement zones on PennDOT roadways, Lead for Inter-Agency agreement, Program Administrator contract, Co-management of Vendor Contract, Annual Reporting, fiscal management responsibility, and other program needs as needed.

- PTC – Selection of Active Enforcement zones on Turnpike, Program Auditing, Co-management of Vendor Contract, Lead with Procurement of Vendor, and additional program needs as needed.

- RKDK, LLP – Program Administrator who is assisting PennDOT and PTC with all program aspects to get the program running and ensure program sustainability throughout the pilot program period.

- PSP – Legislatively identified to review and concurring with violations before being issued by vendor. Additional periodic testing as appropriate to ensure program credibility.

- Redflex Traffic Systems – AWZSE enforcement vendor responsible for turn-key solution of having equipment, enforcement software, annual calibrations, lead processing of violations and ensuring payment and tracking of payments.

- Verra Mobility, Inc. – City of Philadelphia ASE vendor responsible for turn-key solution of having equipment, enforcement software, annual calibrations, lead processing of violations and ensuring payment and tracking of payments.

- PennDOT – Provides Secretary approval of ASE Equipment, ARLE Locations, and Administrators the Grant Funding Program based on revenues from the Program. Also, Secretary appoints 4 members to ARLE Selection team.

- City of Philadelphia Office of Transportation, Infrastructure, and Sustainability (oTIS) – Provides oversight for Mayor in ARLE Locations and selection and participation on the ARLE Selection Team.

- Philadelphia Parking Authority (PPA) – System Administrator and responsible for program reporting and management of automated enforcement vendor.

- McMahon Associates, Inc – Provide Engineering assistance to PPA and develop drawings for program

- Verra Mobility, Inc. – City of Philadelphia ASE vendor responsible for turn-key solution of having equipment, enforcement software, annual calibrations, lead processing of violations and ensuring payment and tracking of payments.

- PennDOT – Provides Secretary approval of School Bus Side Arm Enforcement Equipment in conformance with minimum temporary regulation requirements and Administrators the Grant Funding Program based on revenues or donations from the Program.

- School Districts and/or Bus Companies – Responsible for establishing contracts and ensuring conformance to the Act 159 of 2018 and associated regulation requirements.

- Enforcement Vendor – While services may vary based on requests by School Districts and/or Bus Companies they should only be for services rendered and not per violation.

</table>

- **17 Mobile Units** – 10 generally dedicated to PennDOT, 7 generally dedicated to PTC.
- Mobile units will be entering and deploying to individual projects per shift on a daily basis.
- Deployment shifts include up to 8 hours of active enforcement.
- Up to two anticipated shifts daily per unit, generally one daytime and one nighttime shift.
- Deployment locations will be identified monthly and scheduled weekly, in advance.
- Detailed coordination with District Construction, Maintenance, Design staff in development of schedules.
- Coordinated go-no decision with project team day prior, confirmation day of deployment.
